

COMPANY NAME

SHANDONG DINGXINDA

Chinese manufacturer of galvanized, aluminized zinc and other metals

≡ About us

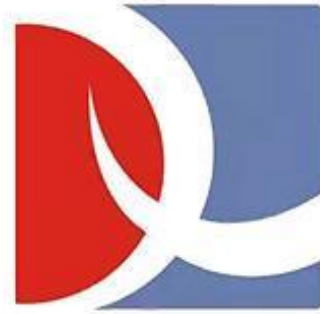

SHANDONGDINGXINDA, is committed to creating domestic steel new trade high-end brand, the company registered capital of 65 million yuan, with annual production capacity of 2.1 million tons of hot-dip galvanized steel pipe, 400,000 tons of galvanized square pipe, 1.6 million tons of galvanized (aluminum) plate, 1.3 million tons of color coated plate. It is a modern enterprise with complete varieties of coated plate and the largest single production capacity in China. Enterprise quality, environment, energy, occupational health, safety management system through ISO, OHSAS international standards certification.

The company's products are shandong famous brand products, won liaocheng Mayor quality Award, China industry-university-Research Cooperation Innovation Achievement Award, China Machinery Industry Science and Technology Award, Shandong Province manufacturing single champion enterprise, Shandong Province quality benchmarking enterprise, national contract abiding credit enterprise, China's top 10 coating and plating plate enterprises, China's Top 500 Building Materials enterprises, National product and service quality integrity Demonstration enterprise, national metal plate industry quality leading brand, National consumer quality credit guarantee products and other honorary titles. It is the compilation unit of 16 national industry and group standards, such as "Color Steel Plate for architectural decoration", "Technical Specification for application of prefabricated support and hanger system", "color coated Steel plate and steel belt for coal chemical industry and thermoelectric industry".

Company tenet

Credit first, quality first

SHANDONGDINGXINDA

鼎 | 信 | 达

Company Vision

The leader of high-end color painted board

Company mission

Committed to become the world's galvanized
product solutions expert

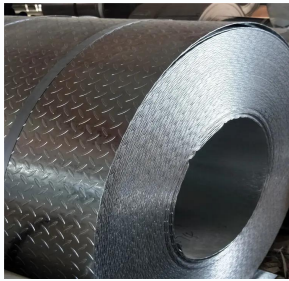

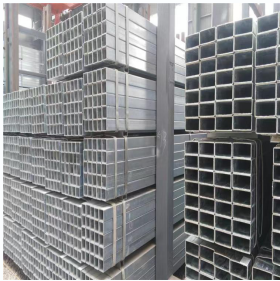

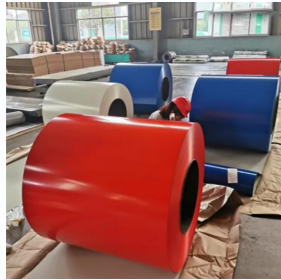

Our products

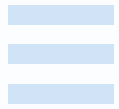

SHANDONGDINGXINDA

鼎 | 信 | 达

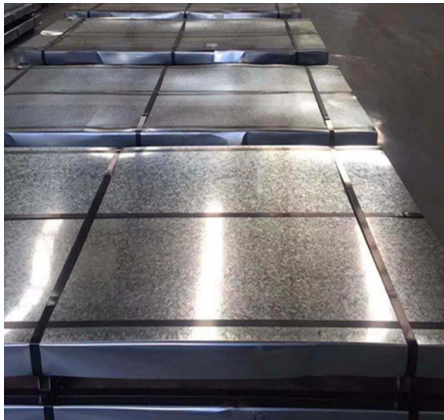

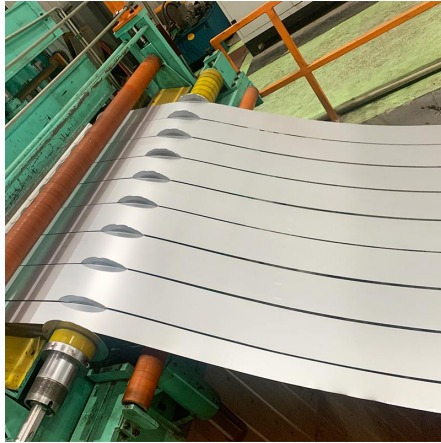

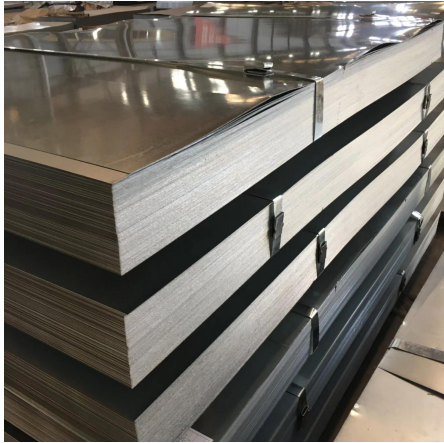

The company is equipped with a number of international advanced production lines, the main production: Hot dip galvanized steel pipe, galvanized square tube, galvanized plate (aluminum), and pet width, high weather resistance caitu, fluorocarbon caitu, silicon change caitu, animal husbandry, anti-static plate, insulation board, since the clean board, writing board, printing plate, floor plate, chameleon, black back board, the manufacture, pickling board, and other products, not only welcomed in domestic market, and exported to overseas markets. Companies adhering to the vision, shoulder the mission, to color plate industry customized leader role, leading the healthy development of the industry, go all out to add luster for China's steel!

Product catalog

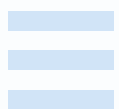

Galvanized steel

Introduction:

Galvanized refers to a surface treatment technology that coats a layer of zinc on the surface of metals, alloys or other materials for aesthetics and rust prevention. The main methods used are hot-dip galvanizing and electro-galvanizing. It prevents corrosion of steel, and its protective performance is closely related to the thickness of the coating.

Material	10#, 20#, 45#, 16Mn, A53(A,B), Q235, Q345, Q195, Q215, St37, St42, St37-2, St35.4, St52.4, ST35
Width	600MM~1500MM(can be customized)
Zinc Coating	40-600g/m2
Length	Length:Single random length/Double random length 5m-14m,5.8m,6m,10m-12m,12m or as customer's actual requests
Standard	API 5L, ASTM A53-2007, ASTM A671-2006, ASTM A252-1998, ASTM A450-1996, ASME B36.10M-2004, ASTM A523-1996, BS 1387, BS EN10296, BS 6323, BS 6363, BS EN10219, GB/T 3091-2001, GB/T 13793-1992, GB/T9711
Grade	10#-45#, 16Mn, A53-A369, Q195-Q345, ST35-ST52 Grade A, Grade B, Grade C
Section Shape	Square, Rectangular, Round,
Technique	6mm Thick Galvanized Steel Sheet Metal
Packing	Bundle, or with all kinds of colors PVC or as your requirements
Surface Treatment	1. Galvanized 2. PVC,Black and color painting 3. Transparent oil,anti-rust oil 4. According to clients requirement
Delivery Time	Usually within 10-45 days after receipt of advance payment

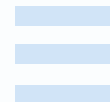

Product catalog

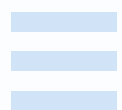

Galvanized Steel Coil

Galvanized Steel Coil gets coated in layers of zinc because rust won't attack this protective metal. The most external layer is all zinc, but successive layers are a mixture of zinc and iron, with an interior of pure steel. These multiple layers are responsible for the amazing property of the metal to withstand corrosion-inducing circumstances. Zinc also protects the steel by acting as a "sacrificial layer." If rust does take hold on the surface of Galvanized steel Coil, the zinc will get corroded first. This allows the zinc that is spread over the breach or scratch to prevent rust from reaching the steel. For countless outdoor, marine, or industrial applications, Galvanized steel Coil is an essential fabrication component.

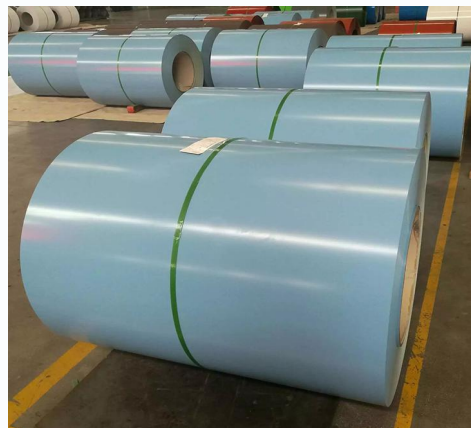

Products	Galvanized steel coil
Grade	DX51D
Standard	JIS G3302,JIS G3312,GB/T-12754-2006
Length	Customer's requirement
Thickness	0.12mm-6.0mm
Width	600-1500mm or as buyer's requirement
Delivery time	30 days after payment
Payment terms	L/C,T/T,etc
Supply ability	10000 Metric Ton/Metric Tons per Month
MOQ	25 Metric Ton/Metric Tons
Application	Mechanical&manufacture,Steel structure,Shipbuilding,Bridging,Automobile chassis

	SS230 SS250 SS275
Width:	600mm to 1500mm
Thickness:	0.125mm to 4.0mm
Zinc coating:	40g/m2 to 275g/m2
Substrate:	Cold rolled Substrate / Hot rolled Substrate
Color:	Ral Color System or as per buyer's color sample
Surface treatment:	Chromated and oiled, and ant-ifinger
Hardness:	Softy , half hard and hard quality
Coil weight:	3 tons to 8 tons
Coil ID:	508mm or 610mm
PackingStandard:	Seaworthy export packing
Payment Terms:	T/T, L/C at sight,West Union,D/P,D/A,Paypal
Package:	covered with a layer of plastic film and cardboard,packed on the wooden pallets/ iron packing,bound with iron belt,loaded in the containers.
Tube:	Paper or Iron
Coil ID:	508mm or 610mm
Coil Weight:	As usual 3-5tons; It could be as your requirements
Logo:	As usual, one logo per meter. Its color and design could be as your requirements.
Shipments:	20' container/ 40' container/ by bulk

Galvalume Steel Coil

The galvalume & aluzinc steel sheet in coil uses the cold-rolled steel sheet as a substrate and solidified by 55% aluminum, 43.4% zinc and 1.6% silicon at 600°C. It combines the physical protection and high durability of aluminum and the electrochemical protection of zinc. It is also called aluzinc steel coil.

Material	CGCC, DX51D,Q195,Q235	
Grade	SGCC,DX51D+Z	
Alu-Zinc Coating	20-120g/m2	
Thickness	0.13-0.7 mm	
Width	600-1250 mm	
Coil ID	508/610mm	
Coil weight	3-8tons	
Surface Structure	Mini/Big Spangle	
Surface Treatment	Anti-Finger printing ,Chromated, oiled/ non-oiled	
Package	standard export package (Detailed picture is as follows)	
Hardness	soft (normal), hard, full hard(G300-G550)	
HS code	721049	
Country of origin	China	
Business type	Supplier and manufacturer	
Surface Structure	Mini Spangle	Big Spangle
Weight of zinc coating	Zinc > 20g/sm	Zinc > 30g/sm
Surface Finish

Square steel pipe

Square steel pipe is also known as square and rectangular cold bending hollow steel, referred to as square pipe and rectangular pipe. It is a kind of joint name of square pipe and rectangular pipe, that is, the steel pipe with equal and unequal side length, it is made of strip steel processed by technology. Generally, strip steel after unpacked, flattened, crimped, welded round pipe, then rolled into square pipe, and then cut into the required length.

Thickness	1-200mm; or as required
Dimensions	10*20-600*800(mm)
Length	2000-16000mm, or as required
Technique	Hot Rolled Or Cold Rolle
Surface treatment	Rust remove , black painting , Galvanized , antirust oil , varnish , 3PE,
Standard	ASTM, JIS, GB, DIN, EN
Payment Terms	T/T, L/C at sight, West Union
Heat Treatment	Annealed; Quenched; Tempered
Certification	CE, ISO, SGS, BV, Mill Certificate
price terms	FOB, CRF, CIF, EXW, CPT
Grade	Q195 — Grade B , SS330 , SPC , S185Q215 — Grade C , CS Type B , SS330 , SPHC , Q235 --- Grade D , SS400 , S235JR , S235JO , S235J2 , Q345 --- SS500 , ST52 , S355JR
Delivery Detail	Standard has Stock ; Normal About 3-5days ; Custom-made 15-20days ; According to order's quantity.
Packing	standard export packing (inside : water proof paper , outside : fumigated wooden box) Hexagon Shape Bundle , Covered With Tarpaulin , Containers Or In Bulk

Galvanized Pipe

The surface of the galvanized round pipe is a welded steel pipe with a hot-dip galvanized layer. Galvanizing can increase the corrosion resistance of steel pipes and prolong the service life. Galvanized pipes are widely used. In addition to being used as pipeline pipes for general low-pressure fluids such as water, gas, and oil, they are also used as oil well pipes and oil pipes in the petroleum industry, especially in offshore oil fields, and oil heaters and condensers in chemical coking equipment. Pipes for coolers, coal distillation washing oil exchangers, and pipes for trestle piles, supporting frames for mine tunnels, etc.

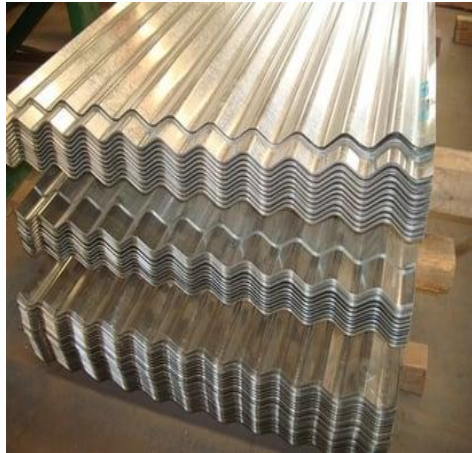

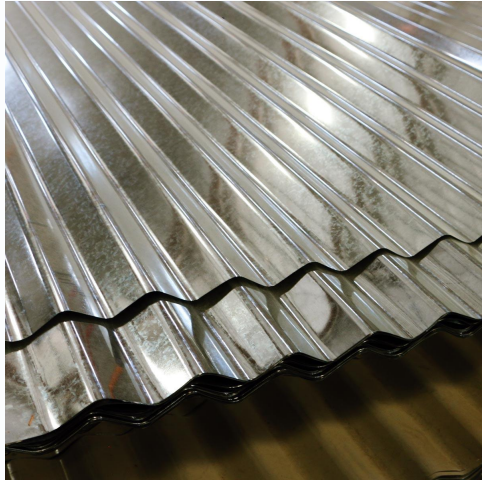

Brand	Goldpro
Thickness	2m-35mm, or as needed
Length	1m-18m, or as needed
Size	1/8 inch to 24 inch, or as needed
Grade	10#-45#, 16Mn, A53-A369, Q195-Q345, ST35-ST52.HC340LA、HC380LA、HC420LA,B340LA,B410LA,15CRMO,12Cr1MoV,20CR,40CR,65MN,A709 GR50
Section Shape	Round, square, oval, small diameter, large diameter, etc.
Capacity	10000 tons/month
Package	Bevel + anti-corrosion paint + pipe cap + steel strapping or bare packing
Surface coating	PE, SMP, HDP, PVDF
Surface treatment	3PE, painting, galvanizing, powder coating, etc.
Delivery time	10-35 days after receive payment
Brand	Goldpro
Thickness	2m-35mm, or as needed

Galvanized corrugated sheet

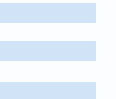

SHANDONGDINGXINDA

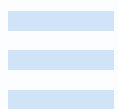

鼎 | 信 | 达

Against extrme heat(spangle reflects the sunlight)

Superior rust protection--lifespan 4-6 tiems longer than gi (aluminum has excellent corrosion resistance).Heat resistant (it keeps good function even used in tropics).With same coating thickness the weight of gi coating is 2 times of gl coating.Have good adhesion with colors which is good to used as the base board of prepainted products

Place of Origin	Shandong,China
Brand Name	Dingxinda
Application	cutting sheets, making corrugated sheets
Type	Steel Coil, Color Coated Steel Sheet
Thickness	0.12mm-4mm
Standard	ASTM,ASTM,BS,DIN,GB,JIS
Width	600mm-1500mm
Length	Customer's Requirement
Grade	Q235,SGCC,SGCH,SGHC,DX51D,SPCC
Coating	40-275g/m2
Top Coating Thickness	15um-25um
Back Coating Thickness	5um-20um
Tolerance	±1%
Coil ID	508/610mm
Coil Weight	3-8 tons
Color	All RAL color or customers samples color
Delivery Time	8-14 days
Keyword	Color Zinc Coated Coil
MOQ	3 Tons
Packages	Standard Seaworth Packing
Payment terms	30%T/T Advance + 70% Balance

Color Coated Roofing Sheet

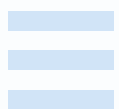

Description:

Color Coated Roofing Sheets are highly durable roofing sheets which have high quality color coating throughout the roof or cladding. The thickness of coating depends on the weather conditions and its use. These roofing sheets come with lining enamel which is used as internal lining.

Standard	AiSi, ASTM, bs, DIN, GB, JIS, JIS G3302,JIS G3312,GB/T-12754-200...
Material	DX51D,DX52D,S350GD,S550GD
Thickness	0.2-3mm
Width	20-1500 mm,Normal width is 914/1000/1219/1250/1500 mm
Type of coating process	Front:double coated&double drying;Back:double coated&double drying;single coated&double drying;
Zinc Coating	40-275g/m2
Color	Standard color:red,blue,white,greyspecial color:according to RAL colorOr as customer'srequires
Characteristics	Weather proof;heating insulation;fireproof;anti-rust;sound insulation;long life span:more than 15 years
Packing	Tied up with steel strips and wrapped with water proof paper
Application	1.construction:prefabricated house,steel house,mobile house,modular house,villa, bungalow design,portable house/carbin,ready made house,kiosk booths,steel building...2.container manufacturing3.household appliances and furniture4.vehicle and vessel manufacturing5.others,like machinery structure parts,manufacturing shells of motors and so on
Shipment	Within 10-15 workdays,25-30 days when the quantity beyond 1000 tons.

H-steel

H-steel is a kind of steel that is often used in construction. Its cross-sectional shape conforms to the laws of mechanics, the internal density is uniform, and the force is balanced. Compared with ordinary I-beams, although its weight is light, its structure is stable, which can save the cost of the building and achieve the effect of earthquake resistance.

thing:	H-steel
length:	Can be customized
thickness:	Can be customized
width:	Can be customized
place of origin; place of origin:	China • Shandong
tolerance:	±1%
Processing service:	Bending, Welding, Uncoiling, Punching, Cutting
delivery time:	Within 25-35 days after confirming the order
shape:	Can be customized
Material:	SGCC/SGCD/SGCE/DX51D DX52D/S250GD/S280GD/S350
