E-S MOTOR is a manufacturer of high precision DC motors, excelling in DC gear motors, brushless DC motors, with dedicated motors production & testing lines, as well as the DC motors R & D team.

Our mission is to meet customer needs in DC motors design and manufacturing. We produce a wide range of motors including PM DC motors, DC gear motors & brushless DC motors. All our motors are made to the highest quality and the tightest controls, with large torque, low noise motors in physically small sizes.

In addition we provide accessories related to motors, such as mounting brackets, wheels.

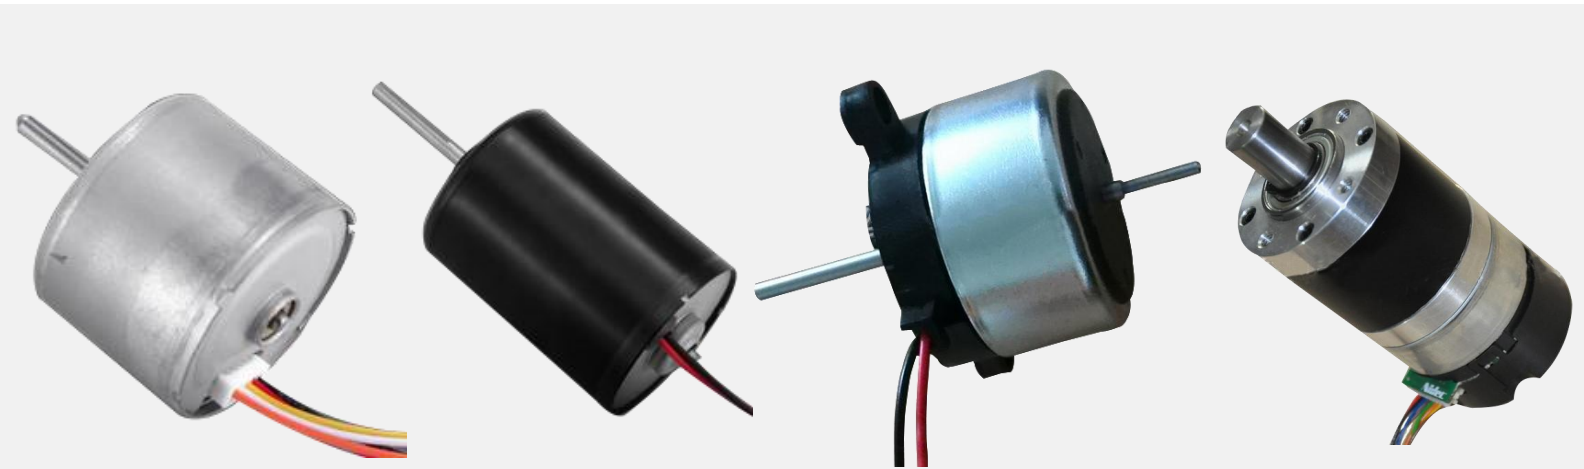

<b>Company Name</b>	Dongguan E-S MOTOR Co.,LTD
<b>Established year</b>	2012
<b>Main Products</b>	PM DC motors
	DC gear motors
	Brushless DC motors
<b>Annual turnover 2016</b>	eight million dollars
<b>Total employees</b>	180
<b>R &amp; D employees</b>	12
<b>QC employees</b>	20
<b>Factory size</b>	1000 m <sup>2</sup>
<b>Main equipment / facilities</b>	Winding Machine, Stamping Equipment, Power Test System Machine for gears' test, Lifetime Test System, Temperature Test System, Noise test room
<b>Company Certification</b>	ISO 9000
<b>Products Certification</b>	UL, RoHS
<b>Main customer</b>	Xerox, Guth Lab, Intracom Telecom, Robotshop

## E-S Brushless Motors

Our brushless DC Motors with Characteristics: CW & CCW, Signal function available, Locked rotor protection, Stepless speed regulation, Low noise, Low EMI, Long life 10000-30000hrs.

Customization of our brushless motors are possible, such as motor's nonstandard specification, shaft length or no D-shaped shaft. Most of our brushless motors can be equipped with planetary or spur gearbox.

Our brushless motors are widely used for robotics, USB fans, slot machine, money detector.

## E-S Gear Motors

Our gear motors are powerful 3 to 24V DC motors with a metal gearbox, both brush motors and brushless motors. And gearbox types: spur, planetary, worm.

All of our gear motors are available with an encoder.

Customization of our gear motors are possible, such as motor's nonstandard specification, shaft length or no D-shaped shaft.

Our gear motors are widely used for robotics, R/C and remote controllers.
