MAYHERN® 2023

ABOUT US

Mayhern Quartz Ltd was established in 2017. It is one of the first domestic production enterprises to introduce automatic technology quartz stone production equipment. The company covers an area of 15,000 square meters. Now it has 3 fully automated quartz stone production lines and a batch of advanced technology and texture equipment.

The annual output of plates is 800,000 square meters. After years of persistent research and development, there are more than 100 products that are in line with international brands in terms of quality and technology, and have been recognized by customers in many regions of the world.

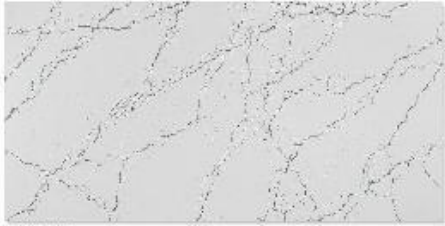

The company takes "quality for survival, reputation for development" as its business philosophy, and integrates product development, production, sales and service.

Mayhern Quartz Ltd not only provides high-quality products, but also is committed to providing customers with high-quality pre-sales and after-sales services, and strives to become a leading brand in the industry.
