

MAHKOTA MULYO
MANUFACTURER

Mahkota Mulyo is one of the pioneer furniture manufacturing companies that has been engaged in the production of wooden furniture for more than 20 years based on custom product in Jepara, Central Java. Our products are believed to be of good quality and are durable for personal use in homes, hotels, restaurants, and offices, both locally and abroad. Our company offers the best quality products from the best-selected wood. Our products have gone through 3 stages of quality check so they will not disappoint buyers.

our project at Bali Hyatt Nusa Dua

INTRODUCTION

Drawing upon more than 20 years of furniture manufacturing experience, we've produced and supplied our best quality products to all corners of the world.

On our first ten years of journey, we focused on producing garden furniture. We exported them to European and American continents.

The furniture trend's rapid growth in the world has triggered us to develop our scope of services.

Since 2010, we have started our business as interior contractor on local projects like café, food court, restaurant and hotel.

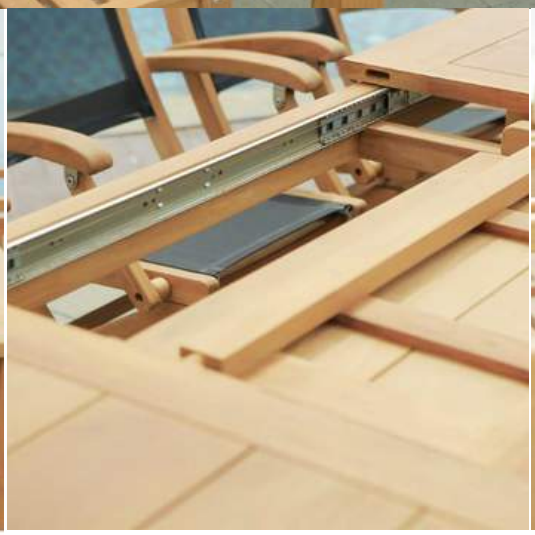

Maintaining products' quality and after sales services are our keys of success. Customer s' satisfaction is always be our top priority

FAVORITE EDITION

Jakarta Collection

Jakarta Collection is our product set which consists of Zenith deep seating and Rustica table (extendable). The Zenith deep seating can be ordered with or without a cushion. Our products maximize wood visuals, both fiber and natural color.

Rustica extendable table is a product from us that offers flexible table sizes. The Rustica table can be extended 60 centimeters so that it can produce enough space for an additional 2 people at your dining table.
Specification:
Wood : Teak Wood
Wood Finishing : Fine Sanded, Natural Waterbased or Custom

Zenith deep seating has variants with cushions or without cushions. This variant is intended to suit customer tastes because it has a dazzling wood grain texture.
Specification:
Wood : Teak Wood
Wood Finishing : Fine Sanded, Natural Waterbased or Custom
Option : With cushion/ without cushion

FAVORITE EDITION

Bathyline Collection

In this collection, we combine the beauty of the teak wood, the durability of the bathyline fabric, and the elegance of stainless steel fittings. For the bathyline, we use Serge Ferrari, a world leader in flexible composite materials technology. Their lightweight, durable, and recyclable solutions meet the functional and aesthetic requirements of our furniture collection. Available in two different fittings (brass and stainless steel) and many different colors of fabric (check Serge Ferrari catalog).

Teak wood bathyline folding chair with armrest is a Mahkota Mulyo signature product that we have sent to Europe and America. This product is always a favorite because of its simple and minimalist design.
Specification:
Wood : Teak Wood
Wood Finishing : Fine Sanded, Natural Waterbased or Custom

Teak wood bathyline dining chair is a Mahkota Mulyo signature product whose packaging uses a knockdown system. This system is in demand by many people because it takes up little storage space, and can be carried anywhere.
Specification:
Wood : Teak Wood
Wood Finishing : Fine Sanded, Natural Waterbased or Custom

Teak wood bathyline bar chair is a Mahkota Mulyo signature product that is made simple, minimalist and thin. Even though it looks like it has a slim structure, the strength of this chair cannot be doubted and is enhanced by stainless steel.
Specification:
Wood : Teak Wood
Wood Finishing : Fine Sanded, Natural Waterbased or Custom
Option : With cushion/ without cushion

Teak wood bathyline deep seating is a Mahkota Mulyo signature product yang diperuntukkan untuk orang - orang yang menyukai posisi duduk nyaman seperti di sofa tetapi penggunaannya untuk outdoor. Kursi ini akan mengikuti lekuk tubuh anda secara sempurna.

UME DINING, HORISON UME, JINENGKU DAY CLUB, UBUD

Cafe, Day Club, Hotel

We were trusted to be the interior contractor for Ume Coffee Dining, Hotel Horison Ume, and Jinengku Day Club in Ubud, Gianyar, Bali. Our work here is very interesting. Apart from highlighting our favorite items such as other Day Bed products, in our work here, we have to adjust everything, both colors and motifs, to suit the character of Ubud, which still has a very strong tradition. It is an honor to be part of this project.

GRAND HYATT NUSA DUA, BALI

Lounge and Room Mockup

It is a matter of pride for us Mahkota Mulyo Manufacturer as a furniture supplier for the Grand Hyatt Nusa Dua, Bali. In our work at Grand Hyatt, we use three types of wood, namely teak, sungkai and rattan. This combination of materials produces a classic and dynamic product. The response to our products has been very positive, and there have been no complaints about our products. In making them, our products go through 5 Quality Check processes to ensure buyers get the best goods from the best raw materials. Our advantage as a manufacturing company is that we can choose the raw materials of our choice.

HYATT REGENCY SANUR, BALI

Room Interior

This is one of the room atmosphere portraits that we worked on at the Hyatt Sanur hotel. We make every detail carefully according to the Blue Print

This is a portrait of another room atmosphere. Each room has a different atmosphere for each floor.

It is natural for a 5 star hotel to have a perfect interior. All interior parts go through a long checking process.

Apart from the quality we provide, all parts in each room are very carefully planned.

The Bali Hyatt Sanur Hotel, which is now Hyatt Regency, Sanur, was Mahkota Mulyo's first step into the world of construction. We had a very expensive first experience. We go through every process and user satisfaction is our happiness. We always guarantee that buyers get what they pay for from us.

OUR COMPANY FLOW PRODUCTION

Mahkota Mulyo stands on an area of approximately 15,000 square meters.

We have land to store our own raw materials. Our raw materials are selected legal raw materials.

We do the milling process ourselves at our place, to get the best cutting results.

Manufacture components by keeping waste to a minimum for material and price efficiency.

We carry out the process of making goods using full machinery works to get maximum results.

The sanding process is carried out in several stages consisting of several groups of people according to their competence.

We always ensure that our quality is first, so our products must be perfect.

We carry out the QC stages 3 times to minimize and prevent human error checking.
