

AGROONE

Delivering Sri Lanka's Best Agro Produce

ABOUT US

We are Agro One

A global supplier of plant-based processed tropical products, based in Sri Lanka – formerly known as Ceylon.

Agro One supplies finest quality plant-based processed food, coconut products, Ceylon spices, dehydrated fruits and vegetables and also herbal products from Sri Lanka – formerly known as Ceylon, the home for world-renowned Ceylon Tea. Accredited by renowned global authorities, the entire process of Agro One complies with profound international food safety standards.

Vision

To be Sri Lanka's leading and most trusted plant-based product manufacturer and exporter, while being committed to maintain exceptional standards in product quality, safety and delivery standards with sustainable practices that ensure the well-being of our stakeholders at all levels.

Our Values

Customer Care

We are committed to delight our clients by delivering quality products manufactured under strict food safety standards, with value added services, on time shipments, and a transparent business approach.

Integrity

We value our reputation and we believe that keeping our word goes a long way. Our stakeholders experience our ethical practices and our transparent business approach.

Innovation

We are sensitive and responsive to evolving market demands and committed to identify and cater to ever-changing market needs through innovation and creativity.

Harmony

Ours is a working environment, led by extensively experienced professionals fostering harmony within the competent, respectful, mature and accountable team who work towards realizing a common goal while ensuring smooth functioning of the business.

Ethical Sourcing

We are dedicated towards the well-being of our stakeholders by always supporting growers, smallholder farmers and other partners by sharing knowledge and following the best practices.

Our Certifications

The background of the slide features a repeating pattern of light blue line drawings on a white background. These drawings include whole coconuts, coconut husks, coconut water in a glass with a straw, coconut oil in a bottle, and various coconut-based products like coconut flakes and coconut oil cubes. The central text is overlaid on a solid blue horizontal band.

COCONUT PRODUCTS

Exotic coconut superfood product range.

ORGANIC COCONUT WATER

PRODUCT

Agro One supplies coconut water extracted from young coconuts of organically cultivated coconut groves in the tropical Sri Lanka. A popular beverage for its remarkable rehydrating and antioxidant properties, coconut water is also known to support heart health and preventing kidney stones. It is also known to free radicals which are unstable molecules produced in the cells during metabolism, remarkably helping with the production of cells due to stress or injury. Due to the growing demand worldwide, Agro One supplies USDA Organic and fair-trade certified high-quality coconut water year-round.

TROPICAL NELLI JUICE

PRODUCT

Nelli (phyllanthus emblica), distinctively different from the Indian variant, Nelli is a magical creation of nature. Widely used in Ayurveda and Sri Lankan traditional medicine, Nelli is the magic ingredient that keeps a human body healthy and functioning smoothly. Due to its powerful remedial qualities, it is popularly known as nature's gift to mankind. Widely used in medicines, skin and hair care, Nelli is an excellent immunity booster, promoting cardiovascular diseases, controlling blood sugar, combatting cancer and cooling down the body. Nelli is low in calories and fat, while being high in dietary fiber, copper, manganese, potassium, Vitamins C, B5 and B6. Although small in size, Nelli is the second richest natural source of Vitamin C that is packed with antioxidant values. While being low in calories and fat, Nelli is also rich in dietary fiber, copper, manganese, potassium, and vitamins C, B5 and B6.

PRODUCT

Passion fruits thrive in tropical Sri Lanka and their remarkably refreshing juice is rich in Vitamins C and A and fibre. Immensely popular as a juice, passion fruit is a versatile fruit that can be used in a myriad of preparations ranging from desserts to yoghurt and salad dressings. Nutrient-dense passion fruit is rich in antioxidants. A rich source of dietary fibre, that helps lower the risk of cardiac diseases and diabetes and good at reducing inflammation. Also helps asthmatic and osteoarthritis conditions.

USES

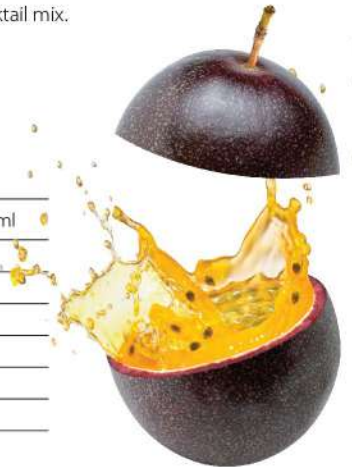

Excellent beverage (natural) for re-hydration.
Ideal intake for potassium boost.
Perfect solution for cocktail and mocktail mix.

TROPICAL TAMARIND JUICE

PACKAGING

250ml, 310ml Glass Bottle

PRODUCT

Agro One Tamarind juice is a great tasting, sweet and sour, refreshing juice made of the pulp of organically grown Tamarind (*Tamarindus Indica*). As a great source of antioxidants, Tamarind contains anticancer properties, aiding heart health while reducing cholesterol. Also known to help improve brain health and protect the liver. Tamarind provides antimicrobial benefits, anti-diabetic effects and helps with constipation, liver and gallbladder problems and stomach disorders. Widely used in South Asian and Arabian regions to treat colds and fever and for pregnancy-related nausea. Tamarind is also used to treat intestinal worms in children.

The background features a light cream-colored surface with delicate, hand-drawn illustrations of various spices and herbs. In the upper section, there are sketches of leafy herbs like parsley and a five-petaled flower. The lower section shows cinnamon sticks, a whole nutmeg, and a cracked open nutmeg revealing its seeds. The central text is set against a solid brown horizontal band.

SPICES AND ESSENTIAL OILS

Flavourful Ceylon spices and aromatic essential oils

CEYLON BLACK PEPPER

USES

Adding Black peppers can bring warmth and depth to your dishes, making them more flavorful and delicious.

Perfect to add flavor and spice to meats, fish, vegetables, salad dressings, soups, stir-fries, pasta, and more.

Other than cooking, Pepper is used for various activities involving medicinal purposes due to its antioxidant that provides anti-inflammatory and antimicrobial effects.

PRODUCT

Ceylon Pepper, with its higher value in piperine content which makes it more superior in quality and pungency is endemic to Ceylon. Pepper, often called as "King of Spices" comes in a range of grades and they are used for extraction of essential oil and oleoresins. Pepper is the world's most traded spice due to it being used as a spice and a seasoning in practically every cuisine across the globe. Black pepper is made from green, unripe drupe of the pepper vine by blanching the drupes in hot water and then cleaning and drying. Agro One supplies USDA Organic and fair-trade certified high-quality Ceylon Black Pepper to its customers year-round.
