

HDPE FOAMED BOARD

BY G&C HOME FURNISHING

Introductions of Company

G&C home furnishing Co.,Ltd is located in Qingdao, which is a famous seaside tourist city in China.

Our company has long been committed to the production and application of HDPE foam board. Our company has an excellent technical research and development team to ensure product quality. At same time, we have experienced design team, which can make sure the products are produced as customer's request. We guarantee our HDPE foamed board with service life 20 years and 2 years of the color for outdoor.

HDPE foam board is made from recycled HDPE with foaming agent. It has excellent performance, strong toughness, not easy to break, its color can be bright and also can be low-key, and its excellent nail-holding ability is comparable to the wood, but the WPC can not match. Due to its excellent plastic characteristics, HDPE foam board has a long service life. And it is widely used in outdoor, such as outdoor tables and chairs, beach chairs and other outdoor furniture; park benches, flower boxes; trash cans; garden fence; racecourse fence,etc. Its products are widely popular in developed countries because of its environmental protection concepts.
