COMPANY HISTORY

1997

CV. Hortindo AgroKencana Farm was established in 1997. It began in floriculture business with the cultivation of cut flowers, especially cut chrysanthemum flowers.

1998

In 1998, development was focused on the horticulture field. We encouraged export supply of Japanese eggplant as raw materials for food companies, targeting Japanese market.

2000

In 2000, plantation of vegetables, including sweet potatoes, was initiated.

2001

In 2001, various Japanese crops, namely wasabi, shishito, zucchini, horenzo, spinach, white radish, daikon, etc., were cultivated and sold to supermarkets.

2002

In 2002 Japanese buyers visited our farm land and advised us to build a sweet potato processing plant.

2003

At the end of 2003, we began to build a sweet potato plant in Tukur Village, Pasuruan, East Java.

2005

In February 2005, production of sweet potato product was initiated for export to Japan. Varieties include : Naruto, Ayammurasaki, Beni Azuma, Kokei. First export to Japan was shipped in April 2005.

2008

In 2008, our product development led us to expand our export scope to South Korea. By now, besides Japan and South Korea, our products have also reached United Kingdom, Netherland and USA.

2016

In 2016, we initiated cassava production for export 2020 to the UK.

2020

at the 2020, we started producing papaya and breadfruit. Papaya products are produced starting in 3 june for export to the Netherlands in 20 June.

In 2020, we started producing papaya and breadfruit. Papaya products were exported to the Netherlands in June, while breadfruit products were exported to Newark, New Jersey, USA in August.
