

BEEKEEPING

We are involved in bee keeping since 2000. At present we have 3000 Bee Boxes of our own. After that, we have started trading of raw honey in the year 2011.

From all the goodwill earned through quality products and handful of experience in this field, we have come together in the form of **GMC Natural Product** for export of honey and related products.

NATURAL PRODUCTS Opp. D.M. Rice Mills, Samrala Road, Khanna-141401 (Pb.) India

G M C Natural Product is a seasoned team of talented humans. We promise to give you 100% purity as GMC wish to serve the customers with quality products for what we are known in the past. The reason behind our product quality is that we have our own Bee Farms. Moreover our bees are taken across different regions of India according to suitable weather conditions so that the best quality of honey can be obtained from them. Our honey is free from antibiotics and is approved by FSSAI.

We have established our own honey processing plant to provide purest honey to our customers.
