## Upstream to Downstream

### Upstream – Coffee Farm

Aroma Group takes care and supports knowledge and development of tools for farmers in Thailand in growing good quality coffee

### Manufacturing

A factory with an area of 3,000 square meters with complete facilities such as warehouse to be able to keep 4,700 tons of coffee green beans, coffee bean colour sorter and scanning machines to ensure a quality of coffee bean from defected and contaminants. And a large coffee roaster up to 120 kilograms per 1 roast and has a coffee filling system with nitrogen to keep coffee beans fresh all the time

### Supply of coffee and related products

In addition to Aroma Group coffee, we have many other products such as tea, cocoa, concentrated fruit juices, dairy products. We also import many high-quality coffee machines from foreign countries, have a complete service team, and have a coffee business development institute for sustainability, whether it's a barista or an entrepreneur of all forms. and the Coffee 2U application that appeals to coffee shop operators and consumers to order coffee beans anytime, anywhere, 24 hours a day.

### Downstream - Cafe

The Aroma Group is not the only manufacturer. We also go to the area by ourselves by having a coffee shop in the form of a franchise (Chao Doi), which currently has 250 branches in Thailand. and the third Japanese cafe in the world (Hario Cafe Bangkok). We also have plans to jointly develop many coffee shops for customers in the future.
