OUR PRESENCE

Elevating Wardrobes

Arte Bella Boutique, established in Dubai, United Arab Emirates in 2019, has emerged as a premium fashion destination for linen clothing. We are committed to delivering quality, authenticity, and luxury through our e-commerce platform, providing customers with a premium product complemented by a personalized and convenient shopping experience. At present, we are making our brand available to our clients at exclusive retail boutique outlets in the city of Dubai.

Originating in Sri Lanka, Arte Bella had a strong presence in the local fashion landscape, with stand-alone retail boutiques and our products were available in multi-brand department stores in Colombo and other cities of Sri Lanka, and also in Kowloon, Hong Kong. The onset of the COVID-19 pandemic in 2020 brought unprecedented challenges, compelling us to make the difficult decision to temporarily shutter our retail operation in Sri Lanka and Hong Kong, and pivot our focus to an e-commerce space anchored in the vibrant city of Dubai in the heart of the Middle East.

Despite these challenges, Arte Bella remains committed to delivering exquisite, ethically crafted fashion. Our transition to online and boutique venues in the UAE allows us to adapt to our customers' evolving needs while maintaining our dedication to quality and sustainability. As we navigate through uncertain times, Arte Bella continues to shine as a symbol of elegance and resilience in the fashion industry.

Crafting Luxury Linen

We specialize in designing and manufacturing Linen clothing.

clothing made from linen has a timeless appeal and holds a unique and significant place in the fashion retail industry with its sophistication, elegance, and aesthetic value, appealing to consumers looking for sustainable, versatile, and stylish apparel.

Arte Bella garments are made from premium 100% natural, buttery soft linen fabric. Our garments are pre-washed assuring maximum softness and best fit and guaranteed to stand the test of time. Our linen is sourced from suppliers, certified by the Alliance for European Flax-Linen and hemp to guarantee the origins of the authenticity of the fabric from flax cultivating farm to textile weaving mill and its traceability along the value chain.

Linen is a natural and eco-friendly fiber renowned for its breathability and temperature-regulating properties best suitable for warm climatic conditions that make linen clothing comfortable and practical. It's not only wonderful to wear linen but it is also the oldest known fiber as one of the most sustainable and a preferred choice for environmentally conscious consumers as its production requires fewer chemicals, water, and energy compared to other fabrics, aligning with sustainability goals.

We believe in natural and sustainable materials that are better suitable for our health and well-being and have a low impact on the environment. That's why we have thoughtfully invested our time and effort in using natural linen to make our garments rather than using synthetic materials.
