## COLLAGEN CREAM R296.67

In the realm of skincare, collagen-infused moisturizers stand as a beacon of rejuvenation, promising to replenish, hydrate, and revitalize the skin. Collagen is a structural protein found abundantly in the body, serving as a building block for skin, bones, muscles, and connective tissues. In the skin, collagen plays a crucial role in maintaining firmness, elasticity, and hydration, giving it a plump, youthful appearance. However, as we age, the body's collagen production naturally declines, leading to the formation of wrinkles, fine lines, and sagging skin.
