ABOUT US

Who We Are

NBARUO NAMBA EXPORT COMPANY LTD: is a dynamic and resourceful enterprise that exports a wide range of high-quality minerals. We pride ourselves on being a reliable partner in the global minerals market, offering a diverse portfolio that includes Copper, Lead, Lithium, Zinc, and many more. Our product range extends to essential minerals such as Florite, Mica, Monoxite, Tin, Iron ore, Coal, Clay, Columbite, Feldspar, and Granite.

Our company is committed to ensuring the highest standards in sourcing, processing, and delivering minerals like Illeminite, Kaoline, Pyrite, Aluminum, and Zircon sand to meet the specific needs of our clients. With a strong focus on quality and customer satisfaction, NBARUO NAMBA EXPORT COMPANY LTD stands out as a leader in the export industry, dedicated to fostering sustainable and mutually beneficial relationships with our global partners.

Our vision

At NBARUO NAMBA EXPORT COMPANY LTD, our vision is to be a leading global supplier of high-quality minerals, driving growth and innovation in the mining and export sectors. We aim to empower industries worldwide by providing a diverse range of essential minerals, including Copper, Lead, Lithium, Zinc, fluorite, Mica, monoxide, and more.

Our mission

At NBARUO NAMBA EXPORT COMPANY LTD, our mission is to consistently deliver superior-quality minerals to our global clients, ensuring their satisfaction and contributing to the growth of industries worldwide. We are dedicated to responsibly sourcing and exporting a comprehensive range of minerals, including Copper, Lead, Lithium, Zinc, Florite, Mica, Monoxite, and Tin, among others..

Our value

At NBARUO NAMBA EXPORT COMPANY LTD, our core values are the foundation of our business and guide every aspect of our operations:

Our Core Values:

- ❖ Innovation:
- ❖ Sustainability:
- ❖ Integrity:
- ❖ Excellence:
- ❖ Quality:
- ❖ Collaboration:
- ❖ Customer-Centricity:
- ❖ Responsibility:

**We
maintain
quality
standards
in our
project
delivery.**

Our Capacity

At NBARUO NAMBA EXPORT COMPANY LTD, our capacity to deliver is built on a foundation of robust infrastructure, expert sourcing, and a global supply network that ensures consistent and reliable access to a vast array of high-quality minerals. We pride ourselves on our ability to meet the demands of diverse industries across the globe with efficiency and precision.

Our Capacity Highlights:

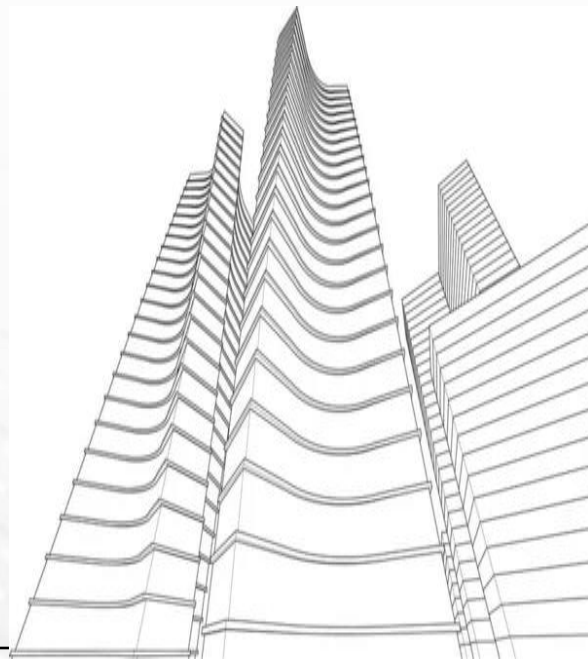

- ❖ Extensive Mineral Portfolio:
- ❖ Large-Scale Operations:
- ❖ Global Reach:
- ❖ State-of-the-Art Facilities:
- ❖ Experienced Team:
- ❖ Sustainable Practices:

Mineral Sourcing and Supply: We provide a wide selection of essential minerals, including:

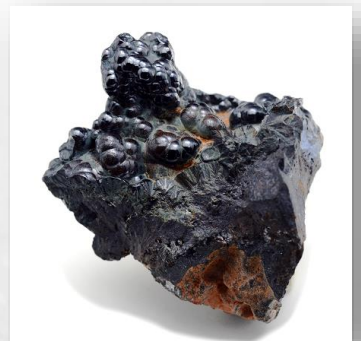

- ❖ Copper: Vital for electrical wiring, electronics, and various industrial applications.
- ❖ Lead: Used in batteries, radiation shielding, and other specialized uses.
- ❖ Lithium: Essential for battery production, especially in electric vehicles and renewable energy storage.
- ❖ Zinc: Critical for galvanizing, alloy production, and die-casting industries.
- ❖ Fluorite: Widely used in the manufacturing of hydrofluoric acid and as a flux in steelmaking.
- ❖ Mica: Known for its insulating properties, used in electronics and electrical industries.
- ❖ Monoxide: Important for the extraction of rare earth elements.
- ❖ Tin: Used in soldering, plating, and various alloys.

Bulk Mineral Exports:

- ❖ Iron Ore: Supplied for the production of steel, a fundamental material in construction and manufacturing.
- ❖ Coal: Provided for energy production, cement manufacturing, and other industrial uses.
- ❖ Clay: Sourced for ceramics, paper production, and construction materials.
- ❖ Columbite: Critical for the production of high-strength alloys and electronic components.
- ❖ Feldspar: Used in glassmaking, ceramics, and as a filler in various industrial processes.
- ❖ Granite: Supplied for construction projects, countertops, and architectural designs.

Specialty Minerals:

- ❖ Illeminite: Crucial for titanium dioxide production, used in paints, coatings, and plastics.
- ❖ Kaoline: Essential in paper production, ceramics, and as a filler in various industries.
- ❖ Pyrite: Used in the production of sulfuric acid and the paper and metal industries.
- ❖ Aluminum: Supplied for use in transportation, packaging, and construction industries.
- ❖ Zircon Sand: Used in foundries, ceramics, and as a refractory material.

Commitment to Excellence: Our services are backed by a commitment to quality, ensuring that every mineral we export meets the highest industry standards. With a robust supply chain and a focus on customer satisfaction, NBARUO NAMBA EXPORT COMPANY LTD is dedicated to being a trusted partner for all your mineral needs.
