

国际物流 INTERNATIONAL LOGISTICS

我们在国际运输方面有丰富的经验，包括空运、海运、中欧班列货运和国际重型车辆超载运输。

We have rich experience in international transportation, including air freight, sea freight, China Europe freight train, and International heavy vehicle overloading transportation.

桥梁
bridge

无锡捷盛源机械有限公司，在香港拥有一家贸易公司YQ INT'L METALLURGY MATERIALS LIMITED，设立于2012年，是一家拥有丰富锻造产品，铸造产品，机械配件，传动设备，油田钻具，矿山设备，无缝管等产品的贸易、应用及服务于一体的公司。为客户提供包括供应商寻源、产品匹配、技术支持、售后服务等一揽子整体解决方案，并致力于为客户提高产品附加值、提升效益、创造价值。

Wuxi Jieshengyuan Machinery Co., Ltd., which owns a trading company "YQ Int'l Metallurgy Materials Limited" was founded in 2012, which is a company with rich experiences in the trade, application and service of forging products, casting products, mechanical accessories, Transmission, oilfield drilling tools, mining equipment, seamless pipes, and other products.

经过多年的发展，目前公司已与多家企业建立了长期合作的伙伴关系；凭借过硬的产品质量与服务，依托国内企业长期稳定的合作关系，与欧洲、澳洲、东南亚、中东、东北欧、南美等多家企业建立了合作关系，以便于为客户提供更有力的服务保障。

After years of development, the company has established long-term partnership with many enterprises; With excellent product quality and service, relying on the long-term and stable cooperative relations of domestic enterprises, we have established cooperative relations with many enterprises in Europe, Australia, Southeast Asia, the Middle East, northeast Europe and South America, so as to provide customers with more powerful service guarantee.

锻件和铸件 FORGINGS AND CASTINGS

我们根据给定的图纸文件提供完整的锻件和铸件产品，从1公斤到200吨，长度到20米。包括自由锻件、开模锻、摩擦螺旋压力锻和及大小铸件。这些产品广泛应用于采矿业、造船业、油田、风力发电、机械、焊接设备等领域。

We provide complete production of forgings and castings according to given drawing documentation from 1 kg up to 200MT and length up to 20m, including free forgings, open die forging, friction screw press forgings and castings. These products are used in various fields, such as mining industry, shipping building, oilfields, wind power, machinery, welded constructions, ect.

FORGINGS

List of commonly used materials:

- 1) standard carbon steel
- 2) alloy steel stainless steel
- 3) other special steels according to customer's request

Heat treatment:

- 1) annealing to eliminate internal stress
- 2) normalization annealing
- 3) quenching and tempering

Machining of forgings:

- 1) Roughing with finishing allowance at customer's site.
- 2) final machining according to drawings

Final inspection of forgings:

- 1) chemical analysis
- 2) mechanical tests
- 3) dimensional protocol
- 4) ultrasonic, capillary or magnetic surface test as required

CASTINGS

List of commonly used materials:

- 1) ordinary structural steels
- 2) special steels for welding

Heat treatment of welded constructions:

- 1) annealing to eliminate internal stress
- 2) according to customer's wish

Machining of welded constructions:

- 1) Roughing with finishing allowance at customer's site
- 2) final machining according to drawings

Final inspection of welded constructions:

- 1) chemical analysis
- 2) mechanical tests
- 3) dimensional protocol
- 4) ultrasonic, capillary or magnetic surface test as required

精密无缝钢管 PRECISION SEAMLESS STEEL TUBE

TUBE FOR AUTOMOTIVE

High precision cold drawn and cold rolled seamless steel tubes for auto parts in transmission, powertrain, steering and suspension systems.
Size: O.D 16-245mm, WT 1-32mm
Delivery Condition
Cold drawn/hard (+C) (BK)
Cold drawn/soft (+LC) (BKW)
Cold drawn and stress relieved (+SR) (BKS)
Annealed (+A) (GBK)
Normalized (+N) (NBK)
Quenched and Tempered (QT)

GEOLOGICAL DRILLING TUBE

Precision cold drawn seamless alloy steel tubes for drilling industry, including mother tubes for wireline drill rods, casings, inner tubes, outer tubes, couplings.
Size: O.D 30-139.7 mm, WT 3-19mm
Steel Grade: 45MnMoB, 30CrMnSiA, 30CrMo, 42CrMo, 40Mn2, 34CrMo4, 42CrMo4: 4130, 4135, 4140, 1541 and etc.
Delivery Condition
Cold drawn and stress relieved (+SR) (BKS)
Normalized (+N) (NBK)
Quenched and Tempered (QT)

HYDRAULIC CYLINDER TUBE

Cold drawn/ cold rolled seamless steel tubes and skived & roller burnished tubes for all kinds of hydraulic cylinders, covering construction machinery, agriculture machinery, mining machinery, material handling machinery, aerial working platform, lifting platform, vehicle, hydraulic jack.
Cold Drawn Tube: I.D ϕ 16-220mm, WT 2-32mm
Cold Rolled Tube: I.D ϕ 16-82mm, WT 3.2-32mm
SRB Tube: I.D ϕ 50-250mm, WT 3-32mm
Steel Grade: 20#, 45#, 25Mn, Q355B, Q345D; ST45, ST52; E255, E355; 1020, 1026, 1045...
