Company:

Running Industry Co., Ltd. is based in Ningbo China, a major port and industrial hub on the east coast of China. We are offering customers professional “one-stop” solutions on machine parts.

Our manufacturing capabilities include but are not limited to

- * Sheet Metal Fabrication
- * Welding Parts
- * Precision CNC Machining
- * Casting and Forging
- * Plastic Injection
- * Assembly Parts

We manufacture the parts according to customers’ design drawings as well as the reference samples, in compliance with specified industry standards, such as ASTM, DIN, JIS, BS, and GB.

Our products have been widely used for different industries, like Auto Parts, Agriculture and Construction Machinery, Railways, Shipbuilding, Hardware and Tools, Housing and decorating, Oil and Gas, Utilities, etc., in the global markets (America, Europe, AUS, Japan etc.).

Company Development History:

Company Culture:

**Innovation, Practicability,
Solidarity, Endeavor**

Our Mission:

**Supply the high performance-
price ratio products and service
to our customer**

Our Service

Not only supply the parts to our customer, but we are also willing to provide

1. Prototype development:

Working with customer to optimize the design to match the manufacturing process.

2. Assemble service:

Assembling the parts with the bearing, spring, fastener, hardware tools, rubber, and others, to supply one-stop service for customer.

3. Logistics Services:

Offering the inclusive supply chain logistics service to our customer, including Express, by air, by ocean, FBA, container loading.
