FLEXI SERIES

Introducing the Flexi Series Cooler—where affordability meets performance! This innovative cooler offers the same exceptional cooling capabilities as traditional models but at a budget-friendly price. Its lightweight design ensures easy transport, making it perfect for outdoor adventures and everyday use. The unique nestable feature significantly reduces shipping costs, allowing for efficient storage and transport. Whether you're planning a picnic, a camping trip, or simply enjoying a day at the park, the Flexi Series Cooler is your go-to choice for reliable ice retention without compromise. Choose the Flexi Series for a smart, economical solution to all your cooling needs!

FLEXI SERIES

KEY FEATURES

- Budget-Friendly Performance: Offers excellent cooling at an affordable price.
- Lightweight Construction: Easy to transport without added bulk.
- Stackable Design: Reduces shipping costs and optimizes storage.

ICEMASTER® coolers are designed in Australia and manufactured at our own production facilities in China.

We began making coolers more than 10 years ago for leading OEM brands in Australia, New Zealand, Japan and the US - and have since become the leading cooler manufacturer in China. In 2016, we designed and developed our own range of premium ICEMASTER® coolers - combining unique style and performance with practicality and function.
