About us

We are an organization catering to the demands of the present day challenging market. Our expertise is in the field of engineering components and fabrication of mechanical parts in Mild steel, Stainless, Aluminum and all noble
metals. Our team of experienced dedicated engineers and technicians have supplied many parts and which was appreciated by our clients. Constantly monitoring the process from the enquiry stage to commissioning and trials of parts at the client premises ensures us with customer loyalty . We cherish the ultimate satisfaction of the user of our components.

Our Manufacturing planning is tailor made to suit the demands of price, quality and delivery. With utmost humility we can claim the customer loyalty was ablessing in the short journey that we have embarked upon.

We have our sister concerns in UAE and Qatar where our dedicated team of engineers and technicians are available to assist the client in any stages of installation
or production process to achieve a smooth operation.

"Striving to excel!"

-Our motto

Key expertise
