

BESCO

Started in 1997, Besco Medical has grown as one of the fastest growing global manufacturer and exporter of durable medical equipment like Wheelchairs, Hospital Beds, Bathroom Safety, Walking Aids and Oxygen Concentrators from China. BESCO produces and distributes its products to customers located throughout North America, Europe, Central America, South America, the Middle East, Asia and Africa.

History

Besco was formed in September 1997 by Mr. CHEN Tingxuan under the name of Besco Industries Limited. Not long after the Company started, the ownership recognized the opportunity to improve the quality of life, then decide providing the users of healthcare products and therefore, created the other name to Besco Medical Co., LTD. Besco has several manufacturing plants in Foshan, Jiangmen and Shenzhen which we expanded to 25,000m² and nearly 1,000 labors.

Mission

Besco's mission is to produce and market world-class products which focus on innovation, functionality and value to improve the quality of life and to promote independence for the individuals that use our products. We are dedicated to our customers by consistently offering the best quality and most functional products, better value and aggressive price, world-class customer service and technical support, friendly people to work with, and ongoing innovation.

Culture

We've got the best people on the planet that are exceptionally talented, diverse, gritty, fun and live the BESCO mission. We've even got Musicians, Basketball Players, Dancers and Cooks in BESCO. We Love what we do at BESCO...and it shows.

Markets

BESCO' customer including: healthcare distributors, retailers, hospitals, pharmacy stores etc. Our recent expansion includes a new Long-Term Care Division and a new Acute Care Division. These developments are accompanied by the continued growth in the core home health care business, supported by a direct, worldwide field sales force.

Hospital Beds

HB002

Electric Expandable Bed

Functions and features:
 Back-rest tilting is 0~62 degree
 Knee-rest tilting is 0~42 degree
 Height adjustment is 390~760mm
 Trendelenburg and reverse trendelenburg are 12 degree.
 Bed foot part can be extended 210mm extra. Bed deck expandable in width from 36" to 42" and 48"

Standard accessory:
 Wooden bed boards, rectangular tube bed decks, 4pcs of 3" swivel castors and 4pcs of total lock brake castors, four motors system, backup battery

Optional:
 Two sectional IV poles, side rails, lifting pole, anticollision castors, mattress

HB005

Folding Homecare Bed

Function:
 Back-rest tilting is 0~73°.
 Knee-rest tilting is 0~37°.
 Height adjustment is 310 ~710mm.
 Trendelenburg and reverse trendelenburg are 12°. The bed is foldable for easy packed and shipped.

Accessory:
 European side rails, 5" castors with brake, four motors system, wooden bed board, mesh bed deck.
 Dimension: L2180*W950*H310~710mm
 Optional: two sectional IV pole, mattress

HB006

Folding Electric Homecare Bed

Function:
 Back-rest tilting is 0~73°.
 Knee-rest tilting is 0~37°.
 Height adjustment is 350 ~750mm.
 Trendelenburg and reverse trendelenburg are 10°. Bed body is folding for easy packing and shipping

Standard accessory:
 Rectangular tube bed decks, 4" castors with brake, wooden bed boards, four motors system

Optional:
 European side rails, two sectional IV pole, mattress, lifting poles.

Dimension	L2170*W920*H350~750mm
Material	Steel framework, wooden bed head/foot
Backrest adjustment angle	0-73°
Leg rest adjustment angle	0-37°
Height adjustment range	350~750mm
Trendelenburg and reverse trendelenburg angle	10°/10°

Hospital Beds

HB007

Ultra Low Electric Bed

Function:
 Back-rest tilting is 0~60°.
 Knee-rest tilting is 0~45°.
 Height adjustment is 220 ~650mm.
 Trendelenburg and reverse trendelenburg are 12°.

Standard accessory:
 European side rails, Wooden bed boards, Steel mesh bed decks, four motors system, 3" castors

Optional:
 Two sectional IV pole, mattress, backup battery, lift pole

Dimension	L2200*W900*H450~760mm
Material	Steel framework
Backrest adjustment angle	0-60°
Leg rest adjustment angle	0-45°
Height adjustment range	220~650mm
Trendelenburg and reverse trendelenburg angle	12°/12°

HB008

Electric Bed

Function:
 Back-rest tilting is 0~60°.
 Knee-rest tilting is 0~45°.
 Height adjustment is 470 ~780mm.
 Trendelenburg and reverse trendelenburg are 12°.

Standard accessory:
 PE plastic side rails, central lock system, four motors system

Optional:
 Two sectional IV pole, mattress, overbed table, backup battery, 5" castors.

Dimension	L2200*W900*H450~760mm
Material	Steel framework
Backrest adjustment angle	0-60°
Leg rest adjustment angle	0-45°
Height adjustment range	450~760mm
Trendelenburg and reverse trendelenburg angle	10°/10°

HB009

Electric Bed

Function:
 Back-rest tilting is 0~60°.
 Knee-rest tilting is 0~45°.
 Height adjustment is 450 ~760mm.
 Trendelenburg and reverse trendelenburg are 12°.

Standard accessory:
 PE plastic side rails, 5" castors four motors system.

Optional:
 Two sectional IV pole, mattress, overbed table, central lock system, CPR function, backup battery

Dimension	L2180*W960*H450~760mm
Material	Steel framework
Backrest adjustment angle	0-60°
Leg rest adjustment angle	0-45°
Height adjustment range	470~780mm
Trendelenburg and reverse trendelenburg angle	12°/12°

Hospital Beds

HB011

Electric Bed

Function:
Back-rest tilting is 0~60°.
Knee-rest tilting is 0~45°.
Height adjustment is 470 ~780mm.
Trendelenburg and reverse trendelenburg are 12°.

Standard accessory:
PE plastic side rails, 5" castors, four motors system

Optional:
sectional IV pole, mattress, overbed table, backup battery, central lock system.

Dimension	L2200*W900*H450~7860mm
Material	Steel framework
Backrest adjustment angle	0-60°
Leg rest adjustment angle	0-45°
Height adjustment range	470~780mm
Trendelenburg and reverse trendelenburg angle	12°/12°

HB013

Electric Bed

Function:
Back-rest tilting is 0~80°.
Knee-rest tilting is 0~35°.
Height adjustment is 350~630mm.

Material:
Detachable ABS bed board, cold-rolled steel bed plate.

Standard accessory:
Aluminum alloy side rails, 5" castors, three motors system

Optional: Two sectional IV pole, mattress, overbed table, central lock system

Dimension	L2180*W980*H350~630mm
Material	Steel framework
Backrest adjustment angle	0-80°
Leg rest adjustment angle	0-35°
Height adjustment range	350~630mm

HB026

Economy Electric Bed

Function:
Backrest- tilting is 0-80°.
Knee-rest tilting is 0-35°.

Material:
Detachable ABS bed board, cold-rolled steel bed plate.

Standard accessory:
Aluminum alloy side rails, 5" castors, two motors system.

Optional: sectional IV pole, mattress, overbed table, central lock system.

Dimension	L2180*W980*H350~630mm
Material	steel framework, ABS bed board
Backrest adjustment angle	0-80°
Knee rest tilting angle	0-35°

Hospital Beds

HB027

Semi-electric Homecare Bed

Function:
Back-rest tilting is 0~70°.
Knee-rest tilting is 0~45°.
Height adjustment operated by crank is 400~580mm.

Standard accessory:
2 pcs of 3" total lock brake castors, 2 pcs of 3" swivel castors, dual motor actuator, Mesh deck

Optional: Side rails, lifting pole.

Dimension	L2240*W900*H400~580mm
Material	Steel framework, wooden bed board
Backrest adjustment angle	0-70°
Leg rest adjustment angle	0-45°
Height adjustment range	400~580mm

HB029

Full-electric Bed

Functions and features:
Back-rest tilting is 0~70°
Knee-rest tilting is 0~45°
Height adjustment operated by motor is 400~580mm

Standard accessory:
2 pcs of 3" total lock brake castors, 2 pcs of 3" swivel castors, dual motor actuator, hi-low motor.

Optional: Side rails, lifting pole.

Dimension	L2240*W900*H400~580mm
Material	Steel framework, wooden bed board
Backrest adjustment angle	0-70°
Leg rest adjustment angle	0-45°
Height adjustment range	400~580mm

HB033

Manual Homecare Bed

Function:
Back-rest tilting is 0~70°. Knee-rest tilting is 0~45°.

Standard accessory:
2 pcs of 3" total lock brake castors, 2 pcs of 3" swivel castors, Rectangular tube bed plate, lifting pole base, self-protected metal crank system.

Optional Accessory:
Side rails, lifting pole.

Dimension	L2240*W900*H525
Material	steel framework, wooden bed board
Backrest adjustment angle	0-70°
Leg rest adjustment angle	0-45°

Hospital Beds

HB036

Manual Homecare Bed

Function: Back-rest tilting is 0~70°. Knee-rest tilting is 0~45°. Height adjustment operated by crank is 450~760mm.

Standard accessory: 2 pcs of 3" total lock brake castors, 2 pcs of 3" swivel castors. Rectangular tube bed plate, lifting pole base, self-protected metal crank system.

Optional: Side rails, lifting pole.

Dimension	L2240*W900*H400~580mm
Material	Steel framework
Backrest adjustment angle	0-70°
Leg rest adjustment angle	0-45°
Height adjustment range	400~580mm

HB038

Manual Bed(3-Crank)

Function: Back-rest tilting is 0~80°. Knee-rest tilting is 0~35°. Height adjustment is 450~730mm.

Material: Detachable ABS bed board cold-rolled steel bed plate self-protected crank system.

Standard accessory: PE plastic side rails, 5" castor

Optional: Two sectional IV pole, mattress, overbed table, central lock system

Dimension	L2180*W900/990*H450~730mm
Material	Steel framework
Backrest adjustment angle	0-80°
Leg rest adjustment angle	0-35°
Height adjustment range	450~730mm

HB039

Manual Bed

Function: Back-rest tilting is 0~75°. Knee-rest tilting is 0~45°. Height adjustment is 450~750mm.

Material: Detachable ABS bed board, cold-rolled steel bed plate, self-protected crank system.

Standard accessory: Aluminum alloy side rails, 5" castors

Optional: Two sectional IV pole, mattress, overbed table, central lock system

Dimension	L2130*W960*H450~750mm
Material	Steel framework
Backrest adjustment angle	0-75°
Leg rest adjustment angle	0-45°
Height adjustment range	450~750mm

Hospital Beds

HB044

Manual Bed

Function: Back-rest tilting is 0~80°, Knee-rest tilting is 0~35°.

Material: ABS bed board, rectangular tube bed plate, self-protected crank system.

Standard Accessory: European side rails, 5" castors.

Optional: Two sectional IV pole, mattress, overbed table.

Dimension	L2180*W990*H680
Material	steel framework, ABS bed board
Backrest adjustment angle	0-80°
Leg rest adjustment angle	0-35°

HB045

Manual Bed

Function: Back-rest tilting is 0~75°, Knee-rest tilting is 0~45°.

Material: Detachable ABS bed board, cold-rolled steel bed plate, self-protected crank system.

Standard accessory: Aluminum alloy side rails, 5" castors

Optional: Two sectional IV pole, mattress, overbed table.

Dimension	L2130*W9670*H500mm
Material	Steel framework
Backrest adjustment angle	0-75°
Leg rest adjustment angle	0-45°

HB047

Manual Bed

Function: Back-rest tilting is 0~75°. Knee-rest tilting is 0~45°.

Standard accessory: Aluminum alloy side rails, ABS bed board

Optional Accessory: I.V pole, Mattress

Dimension	L2130*W960*H500mm
Material	steel framework, ABS bed board
Backrest adjustment angle	0-75°
Leg rest adjustment angle	0-45°

Hospital Beds

HB049

Orthopedic Bed

Function:

Back-rest tilting is 0~80°. Knee-rest tilting is 0~35°.

Material:

Detachable ABS bed board, cold-rolled steel bed plate, self-protected crank system.

Standard accessory:

Aluminum alloy side rails, 5" castors, stainless steel orthopedics tracking frame

Optional:

Two sectional IV pole, mattress, overbed table

Dimension	L2200*W980*H485mm
Material	Steel framework
Backrest adjustment angle	0-80°
Leg rest adjustment angle	0-35°

HB055

Manual Bed

Standard accessory: Sundry shelf

Optional: Two sectional IV pole, mattress

Dimension	L2060*W900*H500mm
Material	Steel

HB056

Electric Examination Bed

Function:

Back-rest tilting is 0~80°. Height adjustment is 420 ~700mm.

Standard accessory: 5" castors, mattress, two motors system.

Dimension	L2000*W600*H420~700mm(Large) L1800*W600*H420~700mm(Small)
Material	Steel framework
Back-rest adjustment angle	0-80°

Hospital Beds

HB053

Stainless Steel Bed(2-Crank)

Function:

Back-rest tilting is 0~75°. Knee-rest tilting is 0~45°.

Standard accessory: Sundry shelf

Optional: Two sectional IV pole, mattress

Dimension	L2060*W900*H500mm
Material	Steel

HB054

Stainless Steel Bed(1-Crank)

Function:

Back-rest tilting is 0~75°.

Standard accessory: Sundry shelf

Optional: Two sectional IV pole, mattress

Dimension	L2060*W900*H500mm
Material	Steel

HB058

Examination Bed

Material:

Stainless steel

Standard accessory: High quality leather cover mattress

Dimension	L1900*W650*H660mm
Material	Stainless steel, leather cover

HB059

Examination Bed

Function:

Back-rest tilting 15°, 28°, 36°, 42°.

Standard accessory: High quality leather cover mattress

Dimension	L1900*W650*H660mm
Material	Stainless steel, leather cover

Hospital Beds

HB065

Baby Bed

Material: Stainless steel

Standard accessory: High quality leather cover mattress

Dimension	L1900*W650*H660
Material	stainless steel,leather cover
Back-rest adjustment angle	15°, 28°, 36°, 42°

Hospital Beds

HB069

Automatic Ambulance Stretcher

Function:

Maximum size (L×W×H): 196×55×98cm
 Minimum size (L×W×H): 196×55×34cm
 Maximum angle of leaning forward: 11°
 Maximum angle of leaning back forward : 70°
 6 grades height: 98cm 94cm 87cm 77cm 60cm 34cm
 Net weight: 38.2kg
 Gross weight: 44kg
 Load bearing: ≤200kg

Application:

Approved by clinic practice,suitable for ambulance,hospital battlefield,gym etc. to carry the wounded & patients.It allows one person to perform retrieval

HB066

Transfer Stretcher

Function:

Back-rest tilting is 0~80°.
 Height adjustment is 570~860mm.

Standard accessory:

PE plastic side rails,central lock system,IV pole,directional castor.

Application:

Used for the patient transferred,rescued and nursed.Matched with central lock system and directional castor,which help users to control the stretcher easier.

Dimension	L1930*W640*H570~860mm
Material	Steel frame, PE plastic side rails
Back-rest adjustment angle	0-60°
Height adjustment range	570~860mm

HB070

Semi-Automatic Ambulance Stretcher

Features:

Made of high-strength Aluminum alloy thick-wall pies
 The bed surface is made of foamed cushion
 The adjustable back for wounded people feel comfortable
 One person is enough to send the patient (with this stretcher) to the ambulance car
 The folding legs are controlled by the handles on both ends of the stretcher
 Can be locked by the fixing devices when on the ambulance car
 Be characterized by its light weight,safe usage and easy for sterilization

Functions:

Product Size: (L*W*H)
 High position: 193*55*85cm/Low position:190*60*24cm
 Maximum Angle of the Back: 75°
 Load Bearing: ≤159kg
 Carton Size: 195*62*25.5cm; N. W.: 40kg/G.W.:46kg

M3

Bed Mattress

Specification:

Maximum size (L×W×H): 196×55×98cm
 Inside is high-density sponge,cocoa and palm fiber

Surface:

Waterproof,wear-resistant material

M4

Bed Mattress

Specification:

L1900*W850*H70mm
 Inside is high-density sponge,cocoa and palm fiber

Surface:

PU cover,high density sponge,Waterproof

Hospital Beds

PM001
IV Stand

Specifications:
L1300 to 2200mm
Material: Stainless Steel, Plastic Base
Standard accessory: Castors

OC07

3L Portable Oxygen Concentrator

Features:
Fashionable style, selected material, compact structure,stream-line front panel,elegant profile, earphone shaped oxygen breathing apparatus made of Nano material,sterilizing and removing contamination.
Multiple usage, can be used at home, in a car and even place without power supply
Mini size,economical power consumption.
Air purifying and refreshing,using photo catalyst active carbon functions to remove dusts,bacteria and odor from air
Mild airflow supplied for a harmonious atmosphere
Advanced technology could control to oxygen purity exactly to 30%.
Via the flat button you can easily set the machine's working time and stop itself

Accessories: Adult Mask,Child Mask,Mouth piece

Specifications:
Airflow outlet: Approx 3±1.5L/m (standard atmospheric pressure)
Concentration:29%±2% (standard atmospheric pressure)
Size: 260(L)*110(W)*170(H)mm
Weight: Generating unit+ adapter 2.00KG
Generating unit+ adapter+ lithium battery(15V,4A)+ charger 2.40KG
Power Consumption: average below 32W
Rated Voltage: AC 100-240V 50-60HZ or DC 12-17V
Noise: below 50dB
Application temperature: 5~40°Application humidity: below 90%RH
Storage temperature: 0~40°Storage humidity: below 80%RH

Respiratory

OC15
5L Oxygen Concentrator

Features:
Integrated oxygen sensing device(OSD) measures concentration at flow meter entrance
American Imported Molecular sieve,long life and efficiency
Advanced oil-free compressor,save 10% power energy
Big LCD screen easy to operate
Oxygen concentration:95%±3% at 1~3LPM,93% ±3%at 4-5LPM
Time to reach 95%±3% the specialized performance:3 minutes
Four step filtering:coarse,pre,inlet and bacterial
Temperature operation range:20 to 60 OC
Continuous monitoring with visual and audible alert on:
A.Low and high output pressure
B.Low oxygen concentration
C.Oxygen monitor:more than 85% green light shining,85%-73% yellow light shining,below 73% red light shining with alarm
D.Power failure
Optional Accessories:oxygen nebulization,timing,remote control,five way flow splitter

Specifications:

Max.Flow	Oxygen Density	Running Noise	Size(mm)	Power Consmpion	N.W(kg)	Continuous Working Time
5L/Min.	93±3%(V/V)	≤52dB(A)	390*310*640	≤480W	25	10,000 hours

OC17
3L and 5L Oxygen Concentrator

Features:
3L and 5L Capability
Innovative,modular design
Casters for mobility easily
Quiet and lightweight design
Long-life compressor designed for 25,000 hours for maintenance-free use
Oxygen Concentrator Indicator(OCI)
Humidiflow--eliminates the need for bubble humidifier

Specifications:

Max.Flow	Oxygen Density	Running Noise	Size(mm)	N.W(kg)	Working Time
3L/Min.	95±3%(V/V)	≤48dB(A)	381*431*711	13.0	25,000 hours
5L/Min.	95±3%(V/V)	≤50dB(A)	381*431*711	13.5	25,000 hours

Respiratory

OC18

5L Oxygen Concentrator

Features:

Adopts American PSA technology, uses physical method to separate pure oxygen from air
 French molecule sieve, long life and high efficiency
 Compact structure design, light weight, easy to move
 Advanced oil-free compressor, save 30% power energy
 24 hours continuous working available, 20 000 hours working time warranty
 Big LCD Screen easy to operate
 Remote control with timing setting
 Power off alarm, abnormal voltage alarm
 Time setting, times keeping and time counting
 Optional nebulizer and oxygen purity alarm function
 Basic function: time counting, power off alarm and abnormal voltage alarm, timing & remote control.

Optional function:

oxygen nebulization, timing, oxygen density monitoring, remote control

Specifications:

Max.Flow	Oxygen Density	Running Noise	Size(mm)	Power Consumption	N.W(kg)	Continuous Working Time
5L/Min.	93±3%(V/V)	≤50dB(A)	350*340*475	≤350W	13	20,000 hours

OC19

5L Dual-flow Oxygen Concentrator

Features:

Dual-flow oxygen concentrator for more people use at the same time
 Adopts American PSA technology, uses physical method to separate pure oxygen from air
 French molecule sieve, long life and high efficiency
 Compact structure design, light weight, easy to move
 Advanced oil-free compressor, save 30% power energy
 24 hours continuous working available, 20 000 hours working time warranty
 Big LCD Screen easy to operate
 Remote control with timing setting
 Power off alarm, abnormal voltage alarm
 Time setting, times keeping and time counting
 Optional nebulizer and oxygen purity alarm function
 Basic function: time counting, power off alarm and abnormal voltage alarm, timing & remote control.

Optional function: oxygen nebulization, timing, oxygen density monitoring, remote control

Specifications:

Max.Flow	Oxygen Density	Running Noise	Size(mm)	Power Consumption	N.W(kg)	Continuous Working Time
5L/Min.	93±3%(V/V)	≤52dB(A)	350*340*475	≤480W	13.5	20,000 hours

Respiratory

OC20

8L Oxygen Concentrator

Features:

Integrated oxygen sensing device(OSD) measures concentration at flow meter entrance
 American Imported Molecular sieve, long life and efficiency
 Advanced oil-free compressor, save 10% power energy
 Big LCD screen easy to operate
 Oxygen concentration: 95%±3% at 1~3LPM, 93%±3% at 4-8LPM
 Time to reach 95%±3% the specialized performance: 3 minutes
 Four step filtering: coarse, pre, inlet and bacterial
 Temperature operation range: 20 to 60 OC
 Continuous monitoring with visual and audible alert on:
 A. low and high output pressure
 B. Low oxygen concentration
 C. Oxygen monitor: more than 85% green light shining, 85%-73% yellow light shining, below 73% red light shining with alarm
 D. Power failure

Optional Accessories: oxygen nebulization, timing, remote control, five way flow splitter

Specifications:

Max.Flow	Oxygen Density	Running Noise	Size(mm)	Power Consumption	N.W(kg)	Continuous Working Time
8L/Min.	93±3%(V/V)	≤53dB(A)	390*310*640	≤480W	25	10,000 hours

SM05

Suction Machine

Features:

Voltage: AC220V±10%, 50Hz±2%
 Input power: 90VA
 Noise: ≤65dB
 Max negative pressure value: ≥0.075MPa
 Pumping rate: 18L/min
 Continuous Working Time: 0-30 min
 Rest Time ≥ 30min
 Bottle volume: 1000 ml
 N.W.: 4.32 kgs G.W.: 5.06 kgs
 Box Size: 35*26*29cm

SM06

Suction Machine with Battery

Features:

Voltage: AC220V±10%, 50Hz±2%, 12VDC
 Input power: 90VA
 Noise: ≤65dB
 Max negative pressure value: ≥0.075MPa
 Negative pressure range: 0.02 MPa to
 Max negative pressure
 Pumping rate: 18L/min
 Continuous Working Time: 0-30 min
 Rest Time ≥ 30min
 Bottle volume: 1000 ml
 N.W. 6.7 kgs G.W.: 7.52 kgs
 Box Size: 35*26*29 cm

Bathroom Safety

BS012
Raised Toilet Seat

BS013
Raised Toilet Seats without Lid

Specification:
Raised Toilet Seat, 2" height
Raised Toilet Seat, 4" height
Raised Toilet Seat, 6" height

BS014
Raised Toilet Seat with Armrest
(Detachable)

BS015
Raised Toilet Seats with
Tool Free Removable Arm

BS017
Powder-Coated Grab Bar

Specification:
Powder coated, 12" Grab Bar,
Powder coated, 16" Grab Bar,
Powder coated, 18" Grab Bar,
Powder coated, 24" Grab Bar,
Powder coated, 32" Grab Bar,

BS017A
Dexule Grab Bar

Specification:
Metal tube with plastic casing, 12"
Metal tube with plastic casing, 16"
Metal tube with plastic casing, 18"
Metal tube with plastic casing, 24"
Metal tube with plastic casing, 32"
Metal tube with plastic casing, 35"

BS018
Chromed Grab Bar

Specification:
Chromed Grab Bar 12"
Chromed Grab Bar 16"
Chromed Grab Bar 18"
Chromed Grab Bar 24"
Chromed Grab Bar 32"

Diagnosis

301

Pulse Oximeter

Feature:

OLED screen
SPO2 and PI rate display
Bar graph available
colors option:dark,blue,blue,yellow,green,pink,purple

Accessory:

1*Pulse Oximeter
1*Manual
1*Hand rope
2*AAA battery (extra cost apply)

302

Pulse Oximeter

Feature:

OLED screen
SPO2 and PI rate display
Bar graph available
colors option:dark,blue,blue,yellow,green,pink,purple

Accessory:

1*Pulse Oximeter
1*Manual
1*Hand rope
2*AAA battery (extra cost apply)

301L

Pulse Oximeter

Feature:

LED screen
SPO2 and PI rate display
Low power indication
Colors option: dark,blue,blue,yellow,green,pink

Accessory:

1*Pulse Oximeter
1*Manual
1*Hand rope
2*AAA battery (extra cost apply)

302L

Pulse Oximeter

Feature:

LED screen
SPO2 and PI rate display
Low power indication
Colors option: dark,blue,blue,yellow,green,pink

Accessory:

1*Pulse Oximeter
1*Manual
1*Hand rope
2*AAA battery (extra cost apply)

Diagnosis

303

Pulse Oximeter

Feature:
 OLED screen
 SPO2 and PI rate display
 Bar graph available
 White color available

Accessory:
 1*Pulse Oximeter
 1*Manual
 1*Hand rope
 2*AAA battery (extra cost apply)

304

Pulse Oximeter

Feature:
 OLED screen
 SPO2 and PI rate display
 Bar graph available
 Yellow and purple available

Accessory:
 1*Pulse Oximeter
 1*Manual
 1*Hand rope
 2*AAA battery (extra cost apply)

304L

Pulse Oximeter

Feature:
 LED screen
 SPO2 and PI rate display
 Bar graph available
 Yellow and purple available

Accessory:
 1*Pulse Oximeter
 1*Manual
 1*Hand rope
 2*AAA battery (extra cost apply)

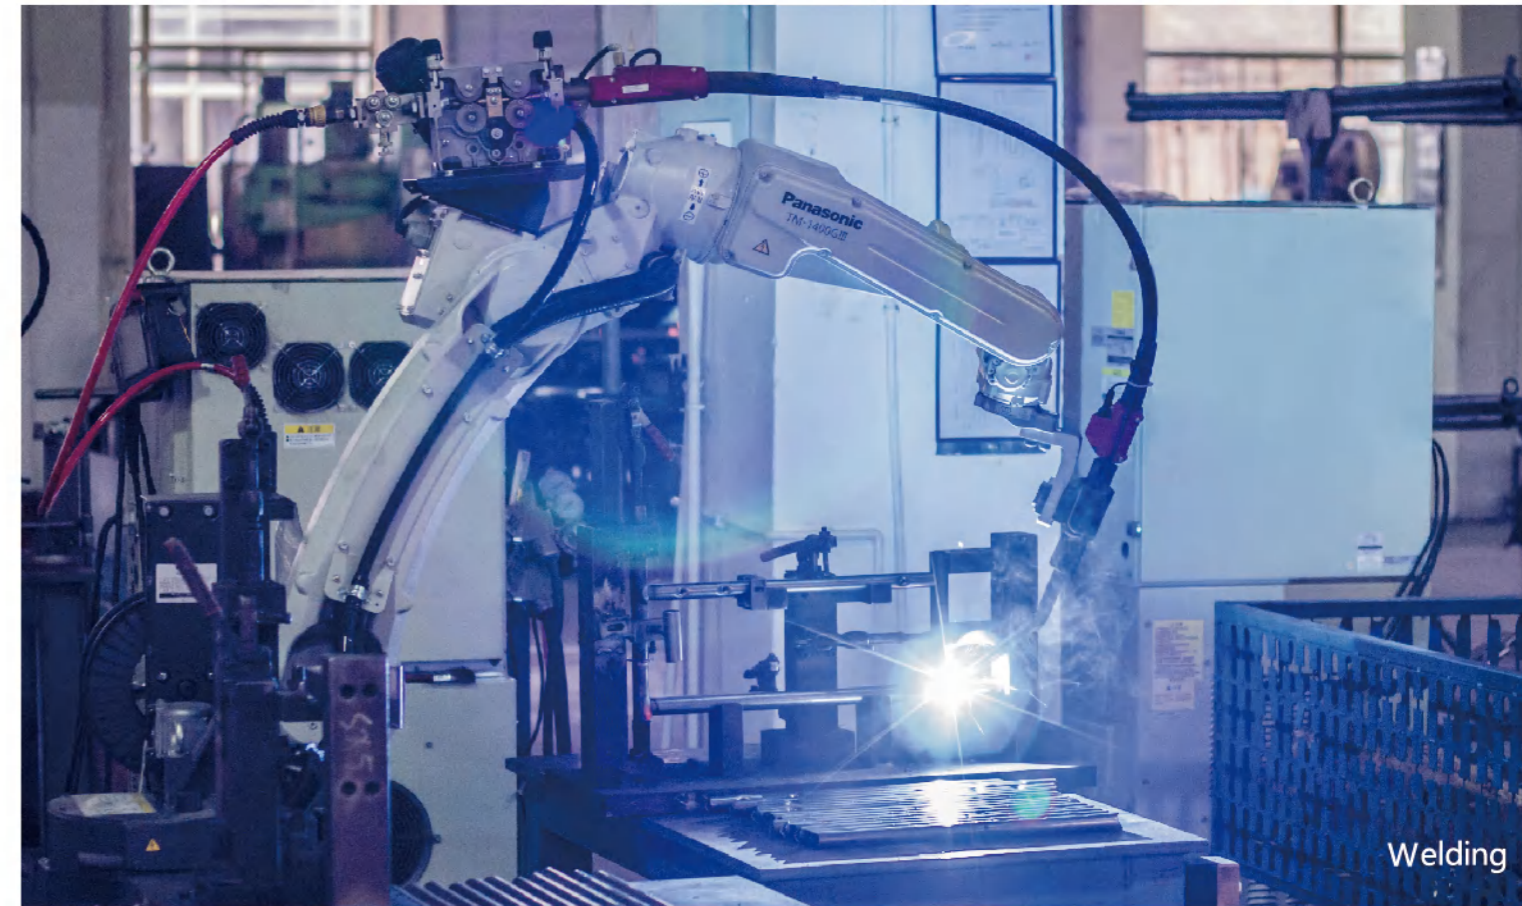

502

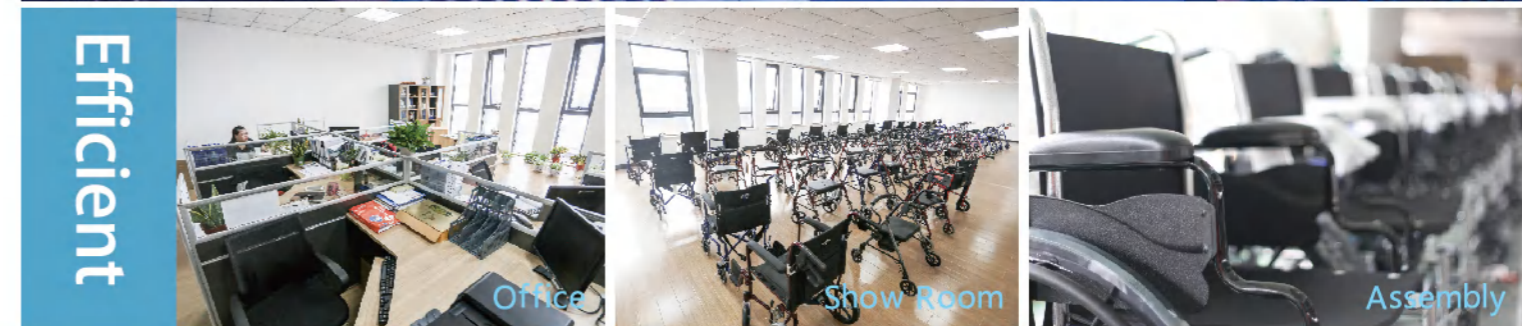

Blood Pressure Monitor

Feature:
 Unique step deflation method
 3.2 inch orange LCD screen
 2*80sets of storage data
 Strong Anti-movement interference

Accessory:
 1*Main unit
 1*Arm cuff
 1*Manual
 4*AA battery (extra cost apply)
