Proactive, Professional, Flexible

A leading bike manufacturer who pays attention to details
and brings your vision to life.

OUR STORY

For over a decade, Ansbern has been dedicated to providing premium brands with innovative product solutions.

As a leading OEM and ODM manufacturer, we specialize in designing and developing a wide range of bikes and electric bikes, including fixie, urban city bikes, gravel bikes,BMX, full suspension eMTBs, and cargo bikes.

At Ansbern, we are committed to creating products that stand out in the market. We never sell the same model to different brands in the same market, so your products will always be unique.

With over 30 patents and we are strong in R&D, we are equipped to handle challenging projects and bring your ideas to life. Our R&D team can provide 3D, CAD, and graphic design for free, so you can see your vision come to life before production even begins.

Our in-house frame and fork manufacturer allows us to offer fast prototyping and production lead times while maintaining strict quality control. We also offer rush order support if needed.

A comprehensive quality control system ensures that your products meet our high standards of excellence.

At Ansbern, we never stop innovating and improving. Let us help you create products that stand out in the market.

E Gravel Bike

Fun

Eco- friendly

Comfortable

Specifically designed for off-road riding on unpaved surfaces such as gravel, dirt, and rocky terrain, e gravel bike is ideal for riding on country roads or off-road trails, as it is often equipped with wider tires, greater tire clearance, and a stable frame geometry to provide maximum comfort and maneuverability.

Experience the freedom to explore with ease and comfort with an e-gravel bike! Don't wait, invest in your next adventure today with an e-gravel bike!

Cargo Bike

**Strong
Multi- Functional
Maneuverable**

Imagine being able to transport cargo easily and efficiently without the hassle of a car. With our cargo bikes, you can do just that!

Unlike traditional cargo vehicles, our cargo bikes are compact and can easily navigate through city streets, bike lanes, and narrow alleys. They are multi-functional, serving as a mode of transportation and a means of carrying cargo, making them a cost-effective solution for small businesses and individuals. Our cargo bikes are designed with stability and strength in mind.

Don't miss out on the benefits of our cargo bikes, start your journey today!
