ABOUT US

A Passion Project.

Funforbalance is not just a company—it's a passion project born out of love and the desire to improve live quality. Countless reasons for trouble to falling asleep or finding comfortable sleeping positions, even including my mom during menopause period, driving my team to research, test, and refine suitable pillows.

Then the solution turns to be our product portfolio. We believe finding the suitable pillows - not the so-called the best - could to some extent relieve the anxiety for insomnia, or make bigger help.

So here we are, as a trustworthy supplier, to help provide suitable pillow solution for everyone, as much as we can.
