100% Colombian Coffee

Tropicalfruit
Colombia

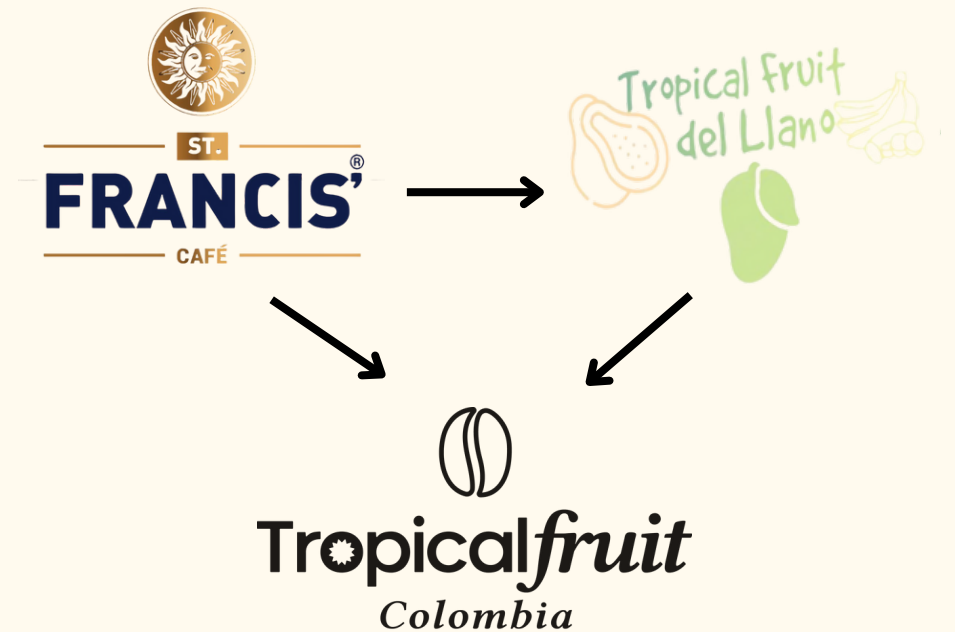

ABOUT US

Tropical Fruit del Llano was born in the fertile fields of the Colombian plains. We began our history 12 years ago distributing top quality fruits to nationally important clients. From the beginning, we were driven by a passion: to bring the best of Colombia to every corner of the country.

As time went by, we allied with Saint Francis, a coffee processor with a lot of experience in the sector. Together, we discovered that our greatest treasure was in our hands: Colombian coffee. Our coffee plantations, located in the best regions of the country, offered us a unique sensory richness. Thus, our mission was born: to take Colombian coffee to the markets of the world.

Seeking to satisfy the international demand for coffee, Tropical Fruit del Llano and San Francis created Tropical Fruit Colombia. Today, we are able to process more than +352,000 pounds of roasted coffee per month and more than +2'000,000 pounds of green coffee. We work with national and international clients in Private Label, Wholesale and Retail. We offer specialty coffee beans, with different varieties and roasting profiles, ready to conquer coffee lovers.

Tropical Fruit Colombia is an international coffee exporter, offering the world the true flavor of Colombia. The true 100% Colombian Coffee. We not only export coffee; we cultivate stories, we share the essence of our land and the sensorial richness of each bean.
