

FSILON

HOME BUILDING MATERIALS FULL SCENARIO
INDUSTRIAL CHAIN PLATFORM

MADE IN CHINA SHARED GLOBALLY

ABOUT US

FSILON was founded in 2005. A leading prefabricated interior demonstration enterprise in China, listed on the main board of China A shares on August 3, 2020.

We are a Home building materials Full scenario industrial chain platform that covers home decoration, engineering and commercial chain decoration. Our company provides R&D, production, manufacturing, sales, and good services. We are located in Haiyan, Zhejiang, China, with 260,000 square meters of super-large smart home industrial park.

As manufacturing sector expands globally, FSILON has seized new opportunities. By capitalizing on the advancements and industrial resources of home building materials industry, FSILON has established the FSL home building materials supply chain platform. This platform aims to offer overseas customers a one-stop-shop for sourcing and supplying home building materials, along with modular and turnkey solutions.

At present, FSL home building materials supply chain industry platform has provided business for customers from the United States, Bangladesh, Angola, Vietnam, Dubai, Zambilai and other countries and regions.

CAPACITY OF PRODUCTION

FSILON

WHOLE SCENE INDUSTRY CHAIN
INTEGRATED SERVICE PROVIDER

Based on the principle of pipeline sharing and main material structure, the integrated design scheme is used to coordinate the wall system, ceiling system, floor system, kitchen system, bathroom system, door cabinet system, inner window system, etc..

The factory production parts are prefabricated in the dry construction method, and the construction and installation of the assembly type decoration construction method is implemented.

Compared with the traditional decoration methods of "harm, slow, dirty, cost" and other defects, we has advantages such as green environmental protection, standard quick installation, simplicity and convenience.

HOME DECORATION

Provide a whole house decoration system and products for families, covering full scene home decoration products such as suspended ceilings, wall panels, floors, tiles, kitchen cabinets, wardrobes, wooden doors, windows, curtains, and integrated appliances, for whole house design, hard decoration main materials, and soft decoration matching.

COMMERCIAL DECORATION

For commercial chain brand store decoration and product services, to design, production, delivery, distribution installation in one-stop, including commercial ceiling, commercial wall panels, movable props, cabinet floor, lighting, decorative door and advertising materials.

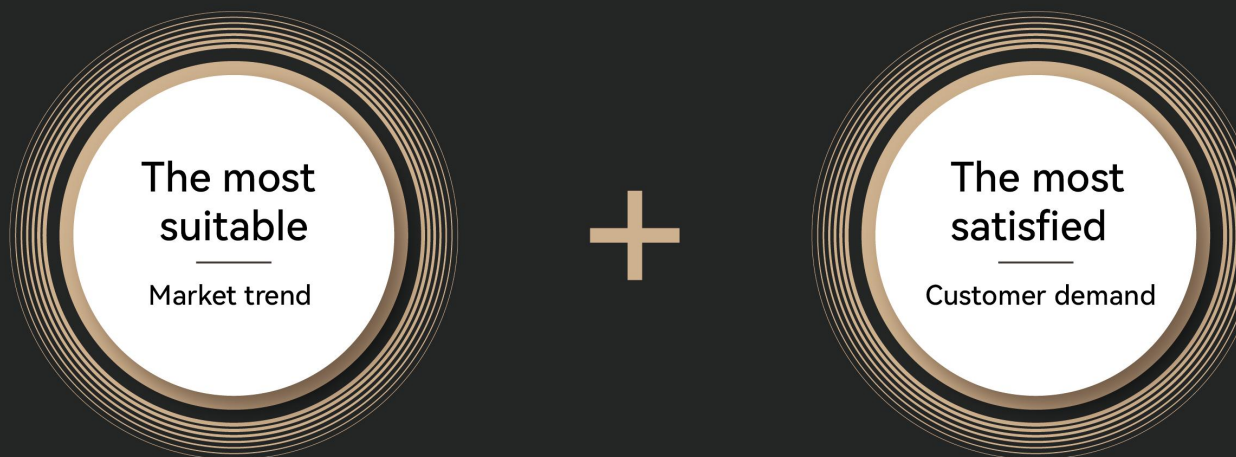

ENGINEERING

For public rail construction, real estate, municipal engineering, provide large aluminum products and top wall engineering solutions.

PREFABRICATED ADVANTAGES

PREFABRICATED INTERIOR DECORATION

will be the largest consumption demand in the future

EASY OPERATION

Just do ceiling
wall, cabinet products
well solve the core part
of decoration

LOWER COST

Unnecessary to open
a big store and the
current operating
expense is low

HIGHER PROFIT

It is the period of market
introduction and growth,
belonging to the blue
ocean market

EASY INSTALLATION

Hi-tech installing
structure simply and
quickly renovation of
old house does not need
to move

AFTER-SALE SERVICE

Module product solve
after-sales problem
individually

WHAT YOU SEE IS WHAT YOU GET

Truly restore the
design effect

TRANSPARENT PRICE

No additions no dark pits
no spending traps
as simple as buying a car

SHORT DELIVERY TIME

Factory prefabrication
dry installation
the delivery time is much
shorter than tradition assembly

HOME DECORATION

STUDY CONFIGURATION

Floor: wooden door
Wall Surface: Quartz sand board
Cabinet: custom wooden cabinets
Bedroom Door: solid wood composite door
Furniture: study desk
Soft: curtain
Lamp: No main lighting

LIVING ROOM AND DINING ROOM CONFIGURATION

Floor: wooden door
Wall Surface: Quartz sand board
Cabinet: sideboard cabinet
Furniture: sofa, TV bench, end table, dining-table
Soft: curtain, painting
Lamp: living room light , dining room light

BATHROOM CONFIGURATION

Floor: SPC floor
Top Surface: ceiling panel
Wall Surface: Quartz sand board
Shower Room: bathroom cabinet, toilet, shower, faucet
Vertical Hinged Door: wooden door
Rests: special roller blind

SECONDARY BEDROOM

Floor: wooden door
Wall Surface: Quartz sand board
Cabinet: custom wooden cabinets
Bedroom Door: solid wood composite door
Furniture: solid wood bed, night table
Lamp: downlight, shoot the light
Soft: curtain

BALCONY CONFIGURATION

Floor: wooden door
Wall Surface: Quartz sand board
Cabinet: custom aluminum cabinets
Door Frame: aluminum alloy sliding door
Electrical Appliances: washing machine
Lamp: balcony light

MASTER BEDROOM CONFIGURATION

Floor: wood floor
Floor: basic level treatment, wall panel
Bedroom Door: solid wood composite door
Custom-Made: sliding door closet
Furniture: solid wood bed, night table
Lamp: bedroom light
Soft: curtain

KITCHEN CONFIGURATION

Floor: SPC floor
Top Surface: ceiling panel
Wall Surface: Quartz sand board
Cabinet: custom wooden cabinets
Lamp: special integrated kitchen light

WPC panel

PROJECT CASE-HOSPITAL

Baoying County fourth People's Hospital

Application material:
Spray panel

Donggang Hospital

Application:
Aluminum veneer,
composite honeycomb panel,
steel composite gypsum panel,
steel wall panel

Jinyinhu Hospital, Union Hospital
affiliated to Huazhong University
of Science and Technology

Application material:
Clip-in AL ceiling

Wuhan Women and Children
Medical Security Center

Application material:
Steel corrugated board, aluminum veneer

Hunan Children's Hospital

Application material: Clip-in AL ceiling

The Second Hospital of
Hebei Medical University

Application material: Engineering
LED lights, Engineering bath
heater, Clip-in AL ceiling

Taoliang People's Hospital

Application material:
Shaped aluminum veneer,
curved aluminum veneer

PROJECT CASE-SCHOOL

Zhejiang University Hangzhou International Science and Innovation Center

Application material:
Metal composite panel,
aluminum square tube

Shanghai Jiao Tong University Zhangjiang Campus

Application material:
Clip-in AL ceiling

Wuhan University of Communication

Application material: Outer
curtain wall aluminum veneer,
inside aluminum veneer

Nantong Vocational University

Application material:
Clip-in AL ceiling, aluminum veneer,
square tube

Wuhan Business College

Application material:
Aluminum veneer, square tube

Application material:
Coated honeycomb panel, roller
coated honeycomb panel

PROJECT CASE-PUBLIC RAIL TRANSPORTATION

Wuhan East Railway Station

Application material: Aluminum veneer, stone transfer aluminum veneer, wood heat transfer aluminum square, custom shaped profile square tube

China-laos Railway -
Mengsai Station

Application material: U-shaped square tube

Karanay Airport, Xinjiang

Application material: Hook up aluminum panel

Luanda International Airport, Angola

Application material: Clip-in AL ceiling
