

**COMPANY
PROFILE**

GREEN TRADE INDIA

**“PIONEERING
EXCELLENCE IN
BENTONITE &
CHINA CLAY
MANUFACTURING.”**

ABOUT US

We are a trusted manufacturer and supplier of **Bentonite** and **Kaolin (China Clay)**, backed by our fully equipped in-house processing plant. With complete control over production, we ensure consistent quality across all our mineral grades.

Our facility offers **customisation in particle size, packaging, and material form**, delivering products exactly as per client requirements. From **lumps to finely processed powders and clay form**, we provide a wide range of Bentonite and Kaolin solutions suitable for various industrial applications.

To support seamless logistics, we maintain our **own in-house transportation**, enabling faster dispatches and reliable deliveries. We ship directly to **Kandla and Mundra Port**, ensuring smooth and timely export operations.

With a commitment to quality, reliability, and customer-centric service, we continue to be a preferred partner for industries seeking premium and customised mineral solutions.

Why Choose Us?

We deliver premium Bentonite and Kaolin with complete in-house manufacturing, customised grades, and precise packaging. With a wide range of mineral forms and our own transport network, we ensure seamless dispatches and direct shipments to Kandla and Mundra Port. Consistent quality, reliability, and customer-focused service make us the trusted choice in the mineral industry.

KEY HIGHLIGHTS

Verified by Certified labs.

Every batch is quality-tested and approved by certified laboratories to ensure purity, consistency, and global standards.

Customizable Quantity

Flexible order quantities tailored to your exact project requirements, from small loads to bulk shipments.

Customer Support

Responsive, reliable support dedicated to assisting you at every step – from enquiry to delivery.

Ready for Export

Efficient export-ready processes with streamlined documentation and direct access to major ports for smooth global shipping.

PRODUCT SPECIFICATIONS

Bentonite Clay

High-quality bentonite with excellent binding and absorption properties. Ideal for various industrial applications.

-  High swelling capacity
-  Excellent binding properties
-  Superior absorption
-  Verified by certified labs

SPECIFICATIONS	
Moisture Content	Max 12%
pH Value	8.5-10.5
Mesh Size	200-300

SPECIFICATIONS	
Brightness	80-86%
Particle Size	80% < 2µm
Moisture	Max 1.5%

Kaolin Clay

Premium kaolin clay known for its whiteness and fine particle size. Used in multiple industries.

-  High brightness and whiteness
-  Controlled particle size
-  Chemical stability
-  Low impurity content

Kaolin Powder

Processed kaolin powder with controlled particle size distribution for specialized applications.

-  Controlled particle size
-  High chemical purity
-  Excellent dispersion
-  Customizable grades

SPECIFICATIONS	
Mesh Size	300-1250
Whiteness	85-92%
Residue	Max 0.5%
