

NKATANRI LTD.

Premium Hibiscus Export Hub

PRODUCTION EXCELLENCE

Our quality begins from production, drying & cleaning until our premium harvest reaches you.

Dried Hibiscus Sabdariffa (Grade A)

Our specialized focus is on premium calyx with minimum breakage to meet your standards. Every stage of the botanical lifecycle is managed with clinical precision to ensure absolute consistency.

- **Oversight of Sun-Drying:** Rigorous management of the drying process to ensure natural color retention and chemical stability.
- **Moisture Precision:** Guaranteed content of $< 10\%$ to prevent degradation during international maritime transit.
- **Sanitation Standards:** A combination of mechanical and hand-cleaning processes ensures zero mold and zero extraneous matter.
- **Botanical Profile:** Deep crimson pigmentation, consistent whole calyx integrity, and sieved purity.

COMPLIANCE & LOGISTICS

Global Standards. Local Execution.

The Trust Framework

1. Quality Control & Inspection

- **Verification:** Full coordination with external trusted TIC (Testing, Inspection, Certification) organization for quality and phytosanitary health.
- **Certification Path:** Currently **Undergoing ISO 22000 Certification** (Food Safety Management System).

2. Exclusive Logistics Solution

- **FOB Delivery:** We offer exclusive FOB solutions.
- **Quality-Control Panel:** Our facility serves as the primary consolidation and quality-control panel.
- **Rapid Documentation:** Efficient handling of Bill of Lading, Phytosanitary Certificates, and Certificates of Origin for global transit.
