Latest Achievements

YONYU keeps on the move with its know-how as well as a strong R&D team. We always enjoy exploring and making new things possible.

Why choose PET for your sustainable products?

- PET is one of the **most recycled** plastics globally
- Produces **less solid waste**, requires **less energy** to manufacture
- Lighter than glass, **reducing transport impact**, and **shatterproof**
- PET offers **superior clarity** and **oxygen barrier**.

Modified PET Material

- Improved Mechanical Strength
- Higher Transparency
- Better UV Resistance
- Alternative to ABS/Glass
- **100% Recyclable**

Modified PET Jars

- **Highly transparent** glass feeling PET jars
- **UV resistant**
- Much **safer** and much more **durable** using
- Easier and plenty **decoration** available

Modified PET Compact Cases

- Very **durable**
- PET pin, which means **100% recyclable**
- Mirror can be taken off easily

Vacuum Metalized PET tube

- **UV resistant**, which means protect your filling better
- **100% recyclable**
- **High shine and metalized** attractive visual

Metalized feeling

Fully cover silk screen printing

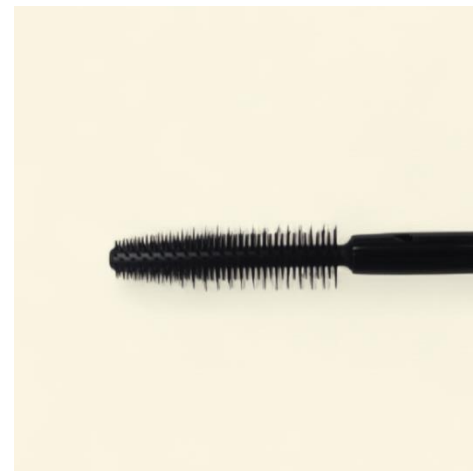

Soft Touch PE Tottle

- Luxury soft touch feeling **without** soft touch spray treatment
- **Durable, no sticky** feeling after long time using as original soft touch spray treatment
- **Cost efficiency**

Mascara bottle with elastomer brush

- **Better elasticity** which means more comfortable on your eye when using
- **Durable elastomer brush**, no messy hairs drop and always in form
- 4 different brush shapes for different effects on your lash.
- **100% recyclable**

Tube with Soft Silicone Applicator

- Luxury silicone applicator tube
- **No leakage**
- **Soft** as velvet, very **comfortable** while using
- Help to apply and blend the lip product on the lips **evenly and gently**
- **Easy to clean**

Tube with Elastomer Brush

- **Unique design** for your mascara and brow gel product.
- **Easy to use**, one-hand action.
- **Durable** elastomer brush, no messy hairs drop and always in form
- **100% recyclable**
- Easy to clean the brush after using for **better hygiene**
