About Novantara Global

Novantara Global is an international trading company dedicated to connecting the world with Indonesia's finest natural resources. Founded with the vision of bringing sustainable and high-quality products to global markets, we specialize in exporting premium coconut shell charcoal briquettes produced from carefully selected Indonesian coconut shells.

Indonesia is home to some of the richest coconut resources in the world. At Novantara Global, we transform this natural abundance into a clean, efficient, and environmentally responsible energy solution trusted by customers across the globe.

With a strong commitment to quality, reliability, and long-term partnerships, Novantara Global aims to become a trusted global supplier of premium coconut charcoal briquettes for shisha, barbecue, and other energy needs.

CONNECTING THE WORLD'S DEMAND

Our Products

Premium Coconut Shell Charcoal Briquettes

Our charcoal briquettes are produced from 100% natural coconut shells, processed using advanced carbonization and compression techniques to create a high-performance fuel product.

Key Advantages

- **Long Burning Time**
Our briquettes burn longer than many traditional charcoal products, making them highly efficient for both shisha and barbecue use.
- **Low Ash Content**
They produce minimal ash, ensuring cleaner usage and easier maintenance.
- **High Heat Output**
Provides consistent and stable heat throughout the burning process.
- **Odorless & Smokeless**
Ensures a pleasant experience without unwanted smell or smoke.
- **Eco-Friendly & Sustainable**
Made from recycled coconut shells, contributing to environmental sustainability.

Product Specifications

Cube

Size: 2.2, 2.5, 2.6, 2.7 cm
Packing : 1 kg in inner pplastic, inner box (10 boxes per master box)
Ash Content: 1.8% - 3%
Moisture content max 7%
Ash Color: white or grey
Calorific Value 7000 - 8000 Kcal
Fix carbon: 52.8% - 88.8%
Burning time: 1 h 40 min ++

Finger Hexagonal

Ash Content: 2% - 25.50%
Moisture: 1.34% - 8.0%
Volatile matter: 9.3% - 17%
Ash color: white or grey
Calorific Value 7000 - 8000 Kcal
Fix carbon: 52.8% - 88.8%
Burning time: 3 - 8 hours

Finger Cylinder

Ash Content: 2% - 25.50%
Moisture: 1.34% - 8.0%
Volatile matter: 9.3% - 17%
Ash color: white or grey
Calorific Value 7000 - 8000 Kcal
Fix carbon: 52.8% - 88.8%
Burning time: 3 - 8 hours

Flat

Ash Content: 2% - 25.50%
Moisture: 1.34% - 8.0%
Volatile matter: 9.3% - 17%
Ash color: white or grey
Calorific Value 7000 - 8000 Kcal
Fix carbon: 52.8% - 88.8%
Burning time: 1 hour 40 min ++

Coconut Shell Charcoal

Ash Content: 2% - 25.50%
Moisture: 1.34% - 8.0%
Volatile matter: 9.3% - 17%
Ash color: white or grey
Calorific Value 7000 - 8000 Kcal
Fix carbon: 52.8% - 88.8%
Burning time: 1 hour 40 min ++

Quality Commitment

At Novantara Global, quality is the foundation of everything we do.

Each production batch undergoes strict quality control to ensure that our briquettes meet international standards. From raw material selection to packaging and shipment, we maintain consistent monitoring to deliver reliable products to our customers.

Our commitment is simple:

consistent quality, dependable supply, and trusted partnerships.

Global Market

Novantara Global serves international markets where premium coconut charcoal briquettes are highly demanded, including:

- Middle East
- Europe
- North America
- Asia
- Africa

Our logistics network enables us to deliver products efficiently to customers worldwide.

Sustainability

We believe responsible business should support both the environment and local communities.

By utilizing coconut shells, which are a natural agricultural byproduct, our briquettes contribute to:

- waste reduction
- sustainable energy solutions
- additional income for local farmers and producers

Through this approach, Novantara Global supports a greener and more sustainable future.
