

About Us

Wuxi CreaSpectra Innovations Co.,Ltd

We're a specialized enterprise engaged in the production of various Printing boxes, Insert Card, Brochures, Products Manuals and Paper Toys etc.

Equipped with multiple advanced printing presses including Heidelberg CD102 6-color presses, KBA Rapida 105 6-color presses, Komori LS40 Super Perfector UV 8-color presses, and Heidelberg SM74 4-color offset presses, the company offers integrated services from printing to box manufacturing. Its post-press facilities encompass dozens of automated equipment such as spot UV coating machines, laminators, paper mounting machines, die-cutting machines, label stripping machines, window patching machines, double-sided adhesive binding machines, and various box gluing machines, enabling comprehensive packaging solutions for clients.

Address: 121 Furong Zhongyi Road, Xishan District, Wuxi City,
Jiangsu Province, China.

Corporate Development Journey

Rapid Business Expansion

With the continuous growth of market demand, the company gradually expanded its operations, necessitating a scale-up in production capacity and sales capabilities. During this period, the company encountered various challenges, including insufficient funding and a shortage of human resources. However, the founders proactively sought suitable partners and implemented a series of measures to address these challenges, ensuring the company's smooth operations and rapid development.

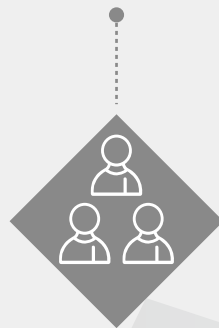

CSR

As the company's scale further expanded and market competition intensified, the company began to place greater emphasis on the fulfillment of social responsibilities. It established a series of environmental protection and social welfare systems. Actively participating in public welfare initiatives, the company also started to focus on employee benefits and working conditions, strengthening staff training and development. By fulfilling its social responsibilities, the company further established a positive corporate image, earning recognition and affirmation from society.

At Its Inception

In its early stages, the company operated on a modest scale, with only a handful of founders and a small number of employees. Through meticulous planning and comprehensive market research, the company defined its development direction and market positioning. Initially, the company faced financial challenges, but the founders, leveraging their keen market insights and risk-taking spirit, successfully secured resources and gained the trust of clients. This marked the beginning of a thriving growth trajectory for the company.

International Expansion

After securing a certain share in the domestic market, the company gradually expanded into the international market. By participating in international exhibitions and collaborating with global enterprises, the company successfully entered several international markets. At the same time, the company actively promoted technological innovation and product upgrades to meet the international market's demand for high-quality products. This international expansion has allowed the company to further enhance its brand recognition and market share, laying a solid foundation for sustainable development.

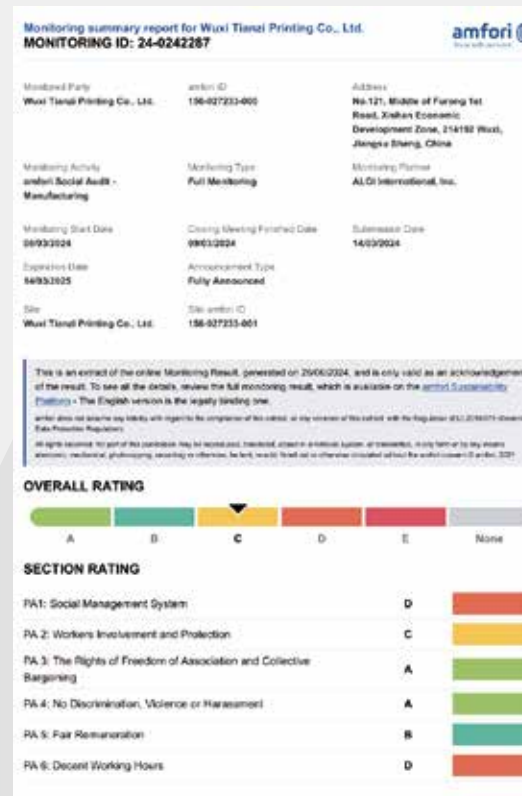

Corporate Credentials

MIX

Packaging from responsible sources

Key Equipment Showcase

Heidelberg CD102-6 6-Color Offset Press

Printing Size: 1050 x 720mm

Equipment Description: Made in Germany, originally imported

Equipment Advantages: High-quality printing with excellent color reproduction, capable of simultaneously printing six colors in one pass, precise registration, and a maximum printing speed of up to 15,200 sheets per hour.

VS Other Factories: More printing colors, faster speed, and the ability to print on thicker paper.

Heidelberg SM74 4-color offset Press

Printing Size: 740 x 520mm

Equipment Description: Made in Germany, originally imported

Equipment Advantages: Capable of four-color printing as well as four-PT color printing, compact and versatile design, with a maximum printing speed of up to 14,000 sheets per hour.

VS Other Factories: Faster plate changing, shorter response time, and an excellent tool for printing hang tags and color cards.

Key Equipment Showcase

KBA Rapida 105 6-color Press

Printing Size: 1050 x 750mm

Equipment Description: Made in Germany, originally imported

Equipment Advantages: Capable of simultaneous six-color printing or five-color + 1 UV coating, with full-area spot color printing delivering rich and vibrant results. The machine supports larger printing sizes and achieves a maximum printing speed of up to 14,000 sheets per hour.

VS Other Factories: Can integrate online water-based varnish or UV varnish, and is ideal for printing high-quality hand-held promotional materials.

Japan-made Komori KOMORI 102 8-color UV Printing Press

Printing Size: 1020 x 720mm

Equipment Description: Made in Japan, originally imported

Equipment Advantages: Capable of simultaneous eight-color printing or seven-color plus reverse UV coating. Excels in printing on special materials such as kraft paper, plastic sheets, and metallic cardstock, with a maximum speed of up to 15,000 sheets per hour.

VS Other Factories: Supports full-area UV coating as well as reverse UV coating, integrating all printing processes in a single machine.

Pre-press Auxiliary Equipment

Kodak CTP Plate Maker / Plate Processor

Post-press Auxiliary Equipment

Full-Automatic Coating m/c / Spot UV Coating m/c

Full-Automatic Laminating and Corrugating m/c

Automatic 1300 Die-Cutting m/c

Automatic 1050 Hot Stamping m/c

Automatic 1050 Die-Cutting m/c

Post-press Auxiliary Equipment

Automatic 1060 Window Patching m/c

Automatic 800 Carton/Box Gluing m/c

Automatic 600 Box Gluing m/c

Automatic 1200 Carton/Box Gluing m/c

Automatic 1200 Double-Sided Taping m/c

Automatic Folding m/c
