PRODUCT CATALOG

Our Company is Based in Dongguan, China—the world's premier manufacturing hub—JF Packaging Products Limited is a leading direct manufacturer of custom premium rigid gift boxes and high-end printed packaging.

ABOUT US

Based in Dongguan, China—the world’s premier manufacturing hub—JF Packaging Products Limited is a leading direct manufacturer of custom premium rigid gift boxes and high-end printed packaging. We specialize in transforming brand concepts into exceptional structural realities, serving a diverse global clientele across the USA, Europe, Canada, Australia, and the Middle East.

As a fully integrated, one-stop facility, we handle the entire production pipeline in-house—from advanced CTP plate-making and high-precision Heidelberg offset printing to automated V-grooving, hot stamping, and rigid box assembly. By maintaining absolute control over our manufacturing line, we offer global brands a highly competitive cost advantage, multi-stage quality control, and rapid sampling turnarounds (3–5 days). Whether you require luxury magnetic shoulder-neck boxes, eco-friendly retail packaging, or complex custom structures, JF Packaging delivers premium craftsmanship with the seamless logistics international markets demand.

OUR STORY

ESTABLISHED IN 2014 & GROWTH

Founded in 2014, JF Packaging set a new standard in the industry with a customer-centric approach. We now operate a 6,000+ sqm modern facility, supported by a team of 50+ skilled professionals and R&D engineers to deliver excellence.

OUR MISSION

We craft visual identities that elevate brand value, captivate international consumers, and drive marketplace success. Our focus is on turning packaging into a strategic tool that tells your brand's unique story.

JF PACKAGING

PRINTING TECHNOLOGY

CTP (Computer-to-Plate) System

Equipment: Kodak CTP Plate setter.
