上海全康 / 昶康

Water Sport Leisure 2023

www.triconsh.com

Shanghai Tricon is one of the leading manufacturers and sellers from Shanghai, China. We own two production facilities at Nantong city, Jiangsu province, with an area of 10 000m² and house and house around 100 workers there. Our factories are well equipped with automatic cutting machines, printing lines, HF welding lines, HB welding lines and gluing lines. We serve the customers with more than 20 years of field experience. This kind of experience can facilitate developing rapidly of the new items and can help us control of the quality issues efficiently.

Our product rang covers many kinds of equipment and items which come under the umbrella of “inflatable and water sport/leisure-related products”. It includes of the tubes (including waterpark tubes, snow tubes and towable tubes), pools (including PVC pools and above-ground pools), inflatable kayaks(including PVC kayaks, TPU kayaks, dropstitch kayaks and fabric kayaks) and ISUPs. We have been focusing on the principle of “Best Quality,

Best Service”. We have been doing our utmost efforts to reduce the costs. We always offer our customers of the competitive pricing in order to create of the win-win situation and grow together for long-term business cooperation.

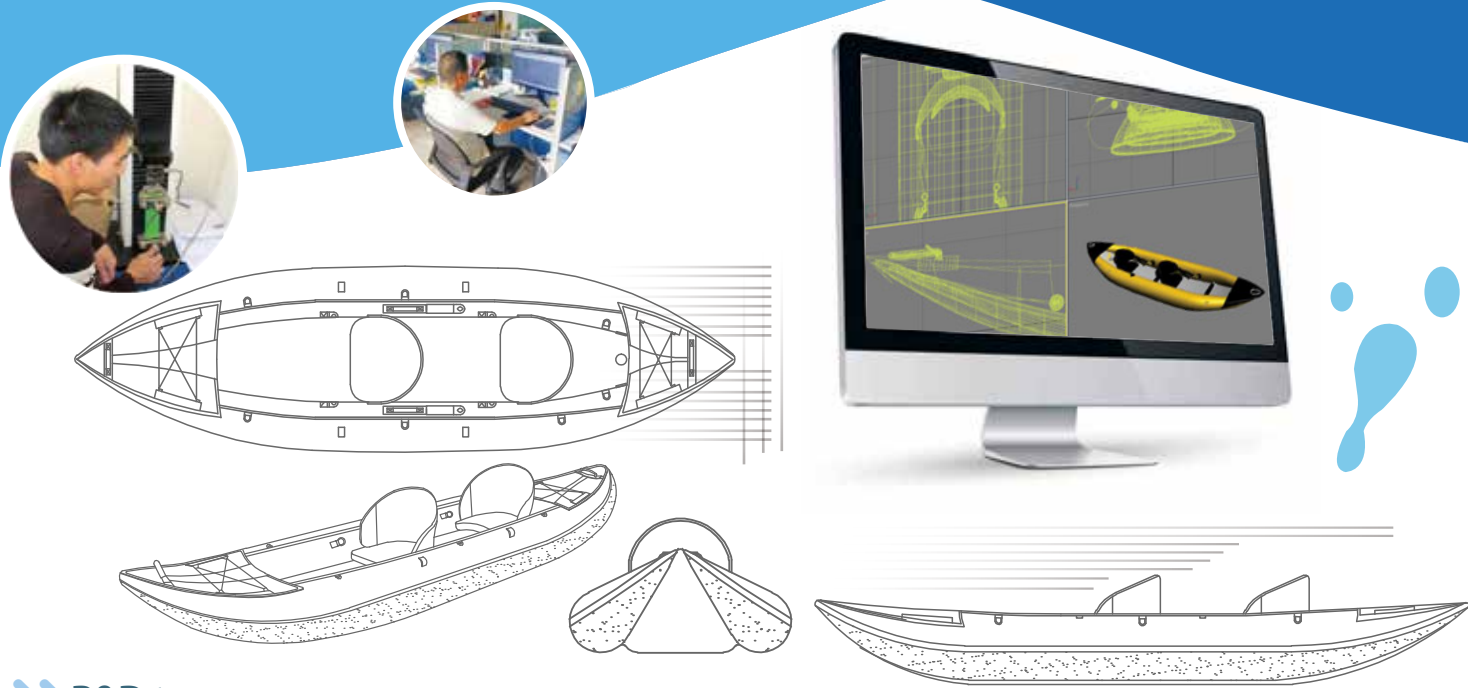

The success and rapid growth of Shanghai Tricon is not only we have been supplying of the quality products, but also supplying of the professional service. We appreciate our partners, customers, colleagues and associates for their continuous support and loyalty. We promise that Shanghai Tricon will bring you better quality and unique products and much more improved services for next years.

上海全康户外用品有限公司是一家生产充气皮划艇，充气站立板和庭院水池的专业公司，拥有自己100%控股的生产基地。工厂占地10000平方米，装备有良好的自动裁剪线。出口60多个国家和地区。公司致力于给国内外客户提供优质的产品和服务，坚持“安全优先，质量优先”的理念，在行业中取得了良好的口碑。

公司的管理团队在此行业都有超过20年的经验并参加过此行业国外专业人士的培训。他们熟悉各种材料的性能，产品生产品质的控管，在此行业拥有独特的经验。我们一直采用优质的原材料（部分是单独开发的特有材料），保持领先的成本优势，将利润空间尽可能分享给我们的合作伙伴和终端客户。

上海全康期待与国内外客户合作，为水上娱乐运动所需的优质和新颖的用品贡献自己的一份力量。

R&D team

Our R&D team permanently improves the manufacturing processes and develops new products. Our long experience in the field of inflatable, reinforced by a very powerful CAD tools enables us to offer products in the vanguard of innovation. Our aim is to provide quality and customers' satisfaction. Result of a proven know-how and a perfect technological control, our items are also comfortable for the satisfaction of all, specialized or general public.

- Side chambers + bottom: made of 1000 denier super tough supported fabric for superior strength. Allows high pressure inflation; very durable, shock and abrasion resistant.
- High pressure valves: removable, replaceable, reliable and airtight.
- Detachable large size skeg: keeps kayak in a straight track while paddling - must be removed for whitewater and shallow water use.
- Large self bailing valves: allow for easy and fast draining of the kayak.
- Tough, durable, rigid, lightweight, great maneuverability and excellent stability.

Kayaks made in coated fabric

Made to meet the expectations of the most demanding kayakers. Sleek, sturdy, extremely rigid and stable: both a recreational and a sports kayak. Suitable for novice as well as experienced paddlers. Ample and comfortable: for 1 person + plenty of gear. Extra large floating surface: reduced drag and increased floatability for smooth and effortless gliding. Unique self bailing valves: to be opened when the kayak is used in white water for quick draining, or closed for a dry ride while touring on calm waters. Designed and constructed to be used on white water, rivers, lakes and sea shore. Ergonomic molded handles are positioned front and rear the boat for convenient boarding and transport. Rugged seats offer a wide array of thoughtful features including high backrest. High-performance fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Convenient storage bag included.

All purpose kayaks

- Floor cover + top hull of side chambers: made of extra strong 600 denier Nylon Oxford reinforced with polyurethane coating. More rigidity and shock absorbance and better paddling performance.
- Bottom and one third outer-side chambers: added strength and durability, resistance against shocks and abrasion, and excellent water tightness.
- Strong zippers on main chambers and floor: practical access to inner hull for replacement and/or repair of inflatable bladders.
- Directional strakes on bottom: better tracking + faster and easier paddling.
- Tough, durable, compact dimensions, lightweight, great maneuverability and excellent stability.

Kayaks made in nylon and heavy-duty PVC

Our most popular "all purpose" reinforced material hull kayak. Ideal for beginners and advanced kayakers. Compact and lightweight. Easy to paddle even by one person. Plenty of space for 2 paddlers + gear. Tracks even better and faster when used with the Skeg. Designed and constructed to be used on rivers, lakes and sea shore. These kayaks are designed for all-purpose recreational use and exceptional value. A stable, efficient hull form, they offer plenty of cockpit space and a PVC I-Beam floor for paddlers and their gear. High-performance fin system includes stiff, durable, foiled fin with unique quick-release for easy setup.

Standard equipment

- 1 Tube & bottom bladder: 22 Gauge K-80 PVC 0.60 mm
- 2 Outside cover, Bow & Stern: 600 reinforced polyester with PU coating
- 3 Bottom cover: Fabric PVC; 1000 Denier, 20x20 scrim and 0.6mm thick

Touring kayaks

- Sun and saltwater resistant, heavy duty 28 gauge hull material.
- I-beam construction floor mattress: extra rigidity.
- Front and rear spray skirts with inflatable thwart.
- Compact dimensions, lightweight and durable.

Kayaks made in PVC

Durable, comfortable, portable, protected by a polyester outer hull, they are the perfect kayaks for river travelling, discovery trips of the sea shore and remote beaches. Stored in their carry bag they fit in the smallest boot of a car. The versatile beginner's choice. Lightweight, rugged and strong enough to hold easily 1 or 2 persons and plenty of gear. The ideal touring family companion for sightseeing, fishing, snorkeling.

Surf - SUP boards

- Inflatable chamber made of drop stitch material: rigid and very sturdy when inflated; very compact when deflated.
- High pressure valve: reliable and airtight. EVA foam on the top: prevents from slipping, and very comfortable.
- Tough, durable, rigid, ample dimensions, lightweight, great maneuverability and excellent stability.
- Detachable large size skeg (for some model): keeps board in a straight track while paddling - must be removed when board is used in shallow water.

Multi-purpose boards

This board comes with round tip and tail. It performs excellently with the good maneuverability on water. It can be used for padding, surfing or coasting river rapids. It is wide on the nose and tapered just exactly at the tail, this board surfs small waves very well. It is ideal for the intermediate or advanced paddler since it tracks extremely well in light surf and choppy water conditions.

Surf board

- This type board is designed for racing.
- It offers the raised stern and sharp corners.
- The typically longer body shape provides more glide and excellent speed.
- The durability double layer EVA makes perfect water-shedding deck.
- It tracks extremely well in light surf and choppy water conditions.

>> Carry Bag for ISUP

We currently have four models:

- A** Trolley bag, which comes with two shoulder straps and can be convertible for carry bag; Ideal for long travelling;
- B** Regular carry bag: It comes with shoulder strap and two pockets; Ideal for regular storage and regular carrying;
- C** Mesh carry bag: It is made of the mesh material and good for drainage;
- D** Hand bag: It is made of the waterproof material. It is ideal for carrying by hand.
