

# ZENERGO RECYCLING

Separation of plastic materials

Separation of granulates and  
shredded materials

- ABS, PP, PE, PS, PA, PET, PVC etc. -

## MATERIAL SEPARATION

Sorting system based on laser spectroscopy which separates previously inseparable plastics with highest precision and speed. (eg. ABS out of PP, PVC out of PET, regardless of color or fraction)

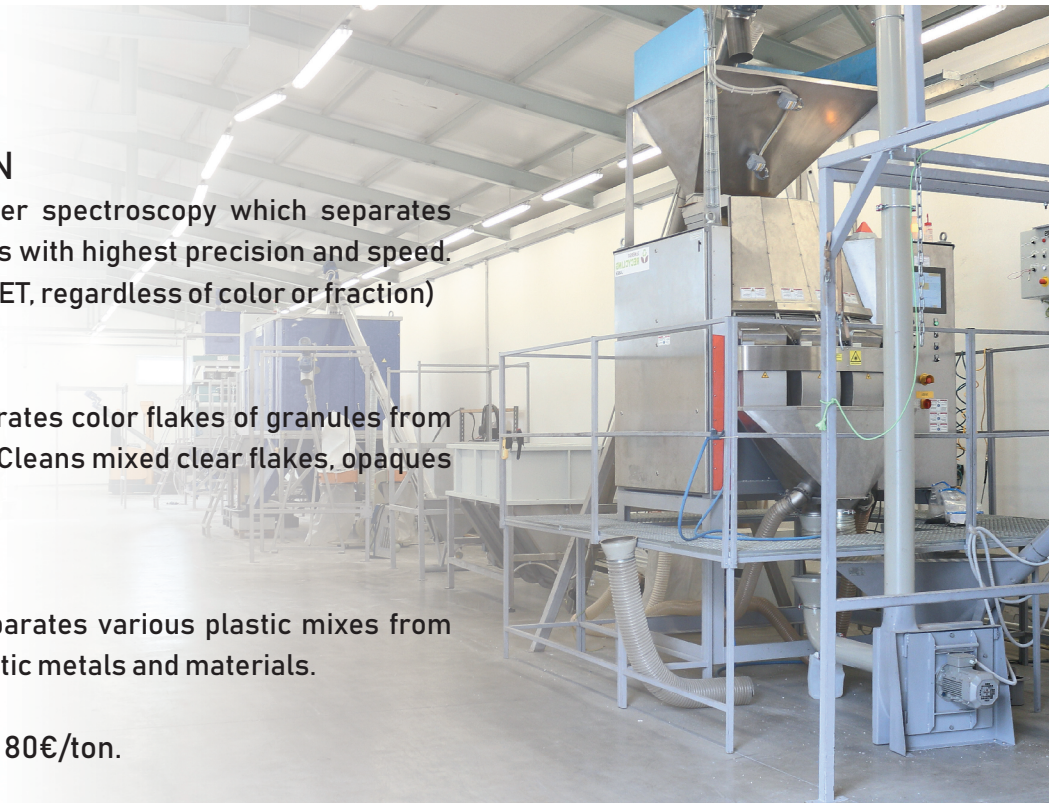

## COLOR SEPARATION

Modern sorting machine separates color flakes of granules from various assorted color mixes. Cleans mixed clear flakes, opaques out of transparent etc.

## METAL REMOVAL

Metal detector and sorter separates various plastic mixes from magnetic, ferric and electrostatic metals and materials.

Price for separation starts at 80€/ton.
