RES NOVAE simply means 'new' in Latin, ideal in every sense for us as we wanted to create a new age of business that integrates as the structural 'DNA' our core values. RES NOVAE COMMODITY GRP aspires to make a difference in the ever competitive world of commodity trading. Our focus is in trading commodity within the energy, agriculture and metal sectors. We want to hold a niche status yet be relevant and accessible to all group of buyers, suppliers, refineries and commodity traders including trade desks globally. Our approaches will be pragmatic solutions to the complex industry assuring us success in the long run.

Commodity trading need to have a crucial and much requisite transitions from the conventional practices, we strive to play a significant role especially in assisting with regulating the commodity market practices within our business parameters without jeopardizing our core values, we anticipate a long journey but RES NOVAE COMMODITY GRP is prepared to face the challenge.

We are innovative, pragmatic, resourceful and financially stable and growing.

RES NOVAE COMMODITY GRP is a unique niche boutique trading consultancy within the commodity industry. Although being a 'new kid on the block', we will never be conformed or just tagged as another commodity trading house as our aspirations is clearly to be different, innovative and creative, rare words that usually never associated in this industry.

RES NOVAE COMMODITY GRP has access to all traded energy and commodities markets from our main business hubs in USA, EU and Asia. We participate in the physical transactions that support our customers' businesses in these markets.

In a market landscape where the commodities trading is burgeoning, we understand that trading is interrelated with establishing direct relationship with refineries and brokerage trading firms omitting the intermediary branch rightfully; to cease from any negative impact on our bottom line. RES NOVAE COMMODITY GRP's trading is global, multi-commodity and asset-backed. We source, we ship, we store, we blend and we transact. As a participant in the commodity benchmark trading markets, we offer the pricing structures and service excellence that create value for our customers throughout the supply chain.

[ABOUT US](#)

[OUR STORY](#)

[OUR VALUES](#)

[OUR BUSINESS](#)

[OUR OFFICES](#)

[CONTACT US](#)

RES NOVAE COMMODITY GRP was founded in 2014, headquartered in Malaysia by Ms Marilyn Macey with simple aspirations to become a niche boutique integrated energy and commodity trading company in the world.

Our objectives guided our team to stay focus at becoming a global energy and commodities company. Our fundamental culture is simplified in service, quality and efficiency. Our rigorous and no nonsense attitude assisted us in moving forward in this arduous industry.

Having begun with a focus on oil trading, our activities now embrace all key energy products and a wide range of commodities mainly focused in North America, Europe and Asia. We have also grown the physical elements of our business with collaboration with refineries, suppliers as well as commodity traders by operating a portfolio of assets, including production, logistics and storage interests.

RES NOVAE COMMODITY GRP's network encompasses strategic offices in USA, UK and Asia with customer base around the globe.

TRADING

RE NOVAE COMMODITY GRP trades in physical energy products, soft commodities and base metals.

We source, supply and trade crude oil and refined petroleum products, we further expanded the portfolio through our core business to encompass natural gas and LNG, coal, iron ore, base metals and a range of other agricultural products.

We enhance our trading activities with strategic assets providing valuable insights into market places where we operate and enabling us to optimize the supply chain; for example, by business management regarding oil production services, fuels, and transport storage and delivery of goods.

Crude oil

RES NOVAE GLOBAL GRP has expertise in trading crude oil. We source worldwide and have access to all the key crude grades.

Our global network of trading offices, ideally located in all the major oil trading regions, allows us to identify changing crude oil flows and evolving market dynamics. We capture value throughout the supply chain through our relationships with oil producers. Our experience and understanding of oil markets enables us to implement robust hedging programs in volatile environments.

Fuel oil

RES NOVAE COMMODITY GRP has strong relationships that is central to our fuel oil business which allows us to supply fuel efficiently to our customers.

We have in-depth awareness of market developments through our activities in all the major oil trading forums.

Complementing this with our worldwide network of offices, we have both a global perspective and local insight into real time market dynamics.

Middle distillates

We supply jet fuel, heating oil and diesel globally and work with our partners to meet all their needs incorporating logistics.

With a global view of the marketplace, and the ability to ship, RES NOVAE COMMODITY GRP is ideally set-up to support customers with comprehensive services for the supply of middle distillates.

Our global office hubs position us centrally in each of the world's main trading regions. This not only delivers benefits through the application of specialized local knowledge within each region, but also enables a wider perspective to optimize trade between the regions.

Above all, RES NOVAE COMMODITY GRP is a trusted partner. We have built our business on long-term relationships and the quality of our operations is highly valued by our partners. We are rigorous in sourcing and supplying jet fuel for many airports as well as various government entities.

LNG

LNG is increasingly becoming a focus for RES NOVAE COMMODITY GRP. We will endeavor to establish supply partnerships and global logistics through which we hope to support partners with LNG.

Our experience of trading all the major energy products and our understanding of the dynamics within and across the energy markets establishes us with powerful insights as to the ebb and flow of LNG demand.

LNG business has been typified by large scale point-to-point transactions. However, many customers are recognizing the flexibility of LNG as a traded commodity and placing greater reliance on the spot market. RES NOVAE COMMODITY GRP is ideally positioned to support both ends of the equation.

With our acknowledged trading expertise we provide wholesale market access to upstream producers and project developers as well as supplying downstream customers such as utilities, industrial concerns, governments and financial investors.

Coal

We trade coal at origin and destination. We operate from business hubs and have a worldwide capability to manage price, supply and quality risk for our partners.

We established supply relationships in all major production locations including Russia, Australia, and Colombia.

Our customers' requirements are constantly evolving and we deliver exactly the right quality to meet their specific needs. This underpins our reputation as a reliable supplier. Unsurprisingly, we regularly transact repeat business.
