COLDICE™

Cooler Box

Kayak

Trustworthy professional cooler and kayak manufacturer

2020

PRODUCT CATALOGUE

Founded in 2014 at the coastal area of Hebei, China, Pingcheng was born from the idea that everyone deserves a high quality rotomolded plastic product. From this idea, we launched a line of virtually indestructible rotomolding products with reasonable prices. We have abundant experience in the cooling industry of introducing rotationally molded plastic products into the market. Kayaks and coolers are proudly envisioned, engineered, tooled, perfected and produced by Pingcheng.

Pingcheng has more than 50 staff. and the separate mold center and test center. Pingcheng owns its brand of COLDICE.

Our rotomolded coolers are made of polyethylene plastic resin and are filled with 2-3 inches of high-pressure injected polyurethane foam. This allows ice retention to reach 5-7 days!

Our kayaks are also made of polyethylene, including recreational kayaks, fishing kayaks, single kayaks, double kayaks, sea kayaks, stand up paddle boards, canoes and kayak accessories.

Our company adheres to the development principle of "quality first, customer first", we are committed to building the most cost-effective domestics kayak and coolers manufacturers. Welcome to contact us or visit us for business cooperation.
