2. COMPANY INFORMATION

2.1 COMPANY AND PRODUCT OVERVIEW :

Gray White Co. It is a general trading firm specializing in the sourcing and marketing of Gypsum and Magnesite raw materials and finished products. Gray Beyaz was established to produce, market and distribute mineral-based raw materials and special additive chemicals used in many industries. For this purpose, we produce our products at the highest quality and at the same standard, with quality control tests at many points, from the mine to the final product stage, in our production facilities.

The company not only manufactures directly, but also outsources manufacturing according to market conditions and sells it to its customers. It also distributes its products to various parts of the country.
