ABOUT US

Hebei Aogs Technology Co., Ltd. adheres to the spirit of "sincere unity, pragmatic innovation, hard work and pursuit of excellence", and is committed to becoming a modern high-standard paper manufacturer that creates ecological and environmental protection through continuous technological innovation and natural high-quality products. We focus on traditional commercial paper production and sales, cultural copy paper slitting and processing, packaging and printing design and development. Adopt advanced production equipment and automatic information management, is a modern high standard paper industry manufacturers. We have the most advanced A4 automatic hob slitting line in China (annual output of 20,000 tons). Our company optimize resources, diversified management, now our products are mainly copy paper, pressure sensitive carbon paper, thermal paper, kraft paper, toilet paper and so on. The product quality is reliable, and has been praised by friends from all over the world

MAIN PRODUCTS

- COPY PAPER
- CARBONLESS PAPER
- THERMAL PAPER
- KRAFT PAPER
- TOILET PAPER

COPY PAPER

Our copy paper products have uniform thickness, strong ink absorption ability, clear ink, realistic printing without overlapping, moderate whiteness, which can relieve eye fatigue. Long fiber wood pulp raw material, fine and thick touch, strong and tough not easy to break, no dust black spot on the surface, high stiffness, good printer performance. Writing is smooth. It is suitable for printing and writing. Our company supports customized packaging, the minimum order quantity of 1 container will be free of packaging customization fee

CARBONLESS PAPER

Our pressure carbon paper is pure wood pulp raw material, it has high stiffness and toughness foot, thick and wrinkle-free, environmental protection and safety. We support bill customization, according to your requirements to design the layout. We use rotary printing production line, daily capacity of about 5000 boxes. We have professional quality inspection personnel, from the selection of materials to the production of finished goods shipment, the whole process of control. You can buy it without worry

THERMAL PAPER

Our thermal paper does not add fluorescent agent, protective coating and thermal layer formulation is reasonable, paper roll tightness is moderate, smooth and does not jam, reduce printer loss. It has the following advantages:

Base paper wood pulp, clear display, uneven coating, smooth printing, neat paper roll, no dust, tight packaging, waterproof and moisture-proof

KRAFT PAPER

Our kraft paper products have the following characteristics:

High stiffness, moisture-proof performance, high folding resistance, uniform color, good printing effect

Its application areas:

Carton, cardboard, paper tube, gift box, tag, handbag

TOILET PAPER

We have advanced toilet paper production equipment, master a variety of paper towel production process. Mature work line, technical professional, complete personnel configuration.
We select concentrate materials, using native wood pulp, paper is delicate and soft, tearing is not easy to break, it is wet water strong, wet water is still strong, if soft and close to the skin, tearing is not easy dust-free without crumbs.

LOOK AHEAD

Our company will integrate industry resources, while doing a good job of existing products, expand business scope, to meet the requirements of different customers. Our company will increase the sales of various paper products, so that customers can one-stop procurement:

1. Product positioning: the combination of medium, high and low end products, product diversification.
2. Product price: the model of small profits and quick turnover. Benefit old customers mode.

We will continue to expand overseas markets and serve global customers. At the same time, overseas institutions will be set up to provide better after-sales service for foreign customers.
