| ABOUT US

Powerful hardware manufacturing capabilities. 30 square kilometers of plant space. The same fully automated production lines as industry leaders P&G and Unilever. Dust-free workshops. Adequate manufacturing capacity, wonderful manufacturing speed

R&D capabilities and expertise. Extensive over 15 years of experience, more than 20 experts, and a Focused household chemical industry. The top 10 independent research and development capabilities in China, collaborating with professional and renowned domestic laboratories like Sun yet-san University, etc. Faster to meet your customer's demand with a quality guarantee

Sufficient selling points. Eco-friendly, Fast dissolution in cold water without residue. A gentle formula designed for infants, PH neutral. Multifunctional, 10x cleaning power, odor removal, softening, brightening

Reliable quality and after-sales guarantee. ISO certified and a number of patents. Each factory product is subjected to strict quality inspection, and each batch is sampled and left to stand for observation. The formulation passed the stability testing with materials of reliable and appropriate quality. At least a one-year after-sales service guarantee according to products, and provide a full refund if any quality problems arise. Can be confirmed by contract

Better quality and lower price. Produce one of the most important raw materials for our products by ourselves: water-soluble film. Cost less when the effect is equivalent to \$10,000 for at least one unit in the market price while others range from \$6,000 to \$35,000 for one unit. Choose better according to the product. Repeatedly experiment and select the most suitable raw materials to achieve the best balance of cost and performance. Offer better quality at a lower price, and obtain a lower cost advantage from us than other competition.

Aoqika is committed to Eco-friendly performance products with affordable prices, Make Home safety and life happy, Make earth clean.
