

Boyuan Foods is established in the year 2007, purpose of supplying best tilapia for African market. After 8 years fast development, we win some certain markets like Zambia, Angola, Cameroon, Cote D' Ivoire, D.R.C etc. More than 10,000 MTs tilapia delivered annually to those countries what makes us to be one of the biggest suppliers.

We focus on tilapia processing which we are good at. Building up our own non-pollution farms while contract with the farmers, ensuring us to be ahead in quality at the start, and we benefit more in fish shortage period especially, consistent supplying enable our customers keep and win their market better and easier. All fish are processed in our factories certified by HACCP and EU to ensure the top quality --- fresh and safe for the consumers. While strengthening ourselves in tilapia industry, we are adding more items to meet different requirements day by day, such as Red Pacu, Channel Catfish, Silver Carp, Pacific Mackerel etc.

With the fast development we slowly lead to the idea of importing the finest aquatic products to China market. And we are proud that we are doing as good as tilapia business. Till now, we have more than 200 agents to work on our 5 series products.

We believe our success is not only offering quality products, sharing market information and solving problems efficiently are bringing our customers ahead of the competitors. And we will keep creating extra value for our partners.
