## Skin Rejuvenation Series

### 3 in 1 SHR IPL+RF + nd yag laser (EMI-M3)

Whole body hair removal

Skin rejuvenation

Epidermal pigment:  
body tattoo, eye line  
and brow tattoo

Dermal pigment:  
Nevus of Ota, birth  
mark, Coffee Spot,  
Freckle

Skin whitening  
(carbon peeling)

### 2 in 1 Portable SHR IPL + nd yag laser (EMI-PM2)

Whole body hair removal

Skin rejuvenation

Epidermal pigment:  
body tattoo, eye line  
and brow tattoo

Dermal pigment:  
Nevus of Ota, birth  
mark, Coffee Spot,  
Freckle

Skin whitening  
(carbon peeling)

**Portable Glass tube Fractional CO2 Laser (EMI-40P)**

- 1.Acne scar, actenic keratoses and basal cell carcinoma
- 2.Burn debridement
- 3.Skin resurfacing and rejuvenation
- 4.Eliminate the scar after surgery
- 5.Improve texture tone and pore size
- 6.Erase unwanted brown spots
- 7.Smoothing wrinkles around the eyes and mouth
- 8.Vaginal rejuvenation

| Product name     | Microneedling+4D HIFU  |
| Output frequency | 1MHz-7MHz              |
| output power     | 10-200W                |
| input voltage    | AC 110V-220V 50Hz/60Hz |
| Fuse             | 5A                     |
| Package size     | 50*44*31CM             |
| Gross weight     | 14kg                   |

| Skin Analyzer Facial Care Series                                                      |                                                                                     |                                                                                                                                                                                                                                                                                                                                         |                          |                                                                                                                                                                                                                      |
