# **DEHYDRATED FRUITS & VEGETABLES**

**Onion Flakes**-The texture of the dish becomes appetising when dry onion are added. No tears left to cry with low traces of pungency. Onion flavour with zero evidence of bulks, sprouting and rooting. Tackle the veggie waste wisely with our dehydrated (red and white) onion flakes. Reach of urban organized platforms makes consumers avail our well-packed products. Purchase bulk for Instant Flavouring & Easy to Use with long-stay life.

**Garlic Flakes**-Dehydrated Garlic powder for no chopping /mincing, zero wastage, natural, long shelf life and endless options. Quality is preserved when dehydrated. Allicin in garlic powder retards staling and makes it easy for eateries and packaged foods. Nothing is going to change, everything remains the same except texture.

**Dehydrated pineapple** - known to be one of the magical fruits. It is loaded with natural sugars and vitamins that bring instant energy whenever you feel tired. Dehydrated pineapple is generally made using a vacuum dehydration process based on the latest technology mechanism. The export of dehydrated pineapple has been increasing over the period of time. This is because dehydrated fruits give the feel of candy and chewiness with a delicious taste.

**Orange Dehydrated** -The export of dehydrated orange from India has been on a rise over the years. This is because of the diverse uses and the storage benefits of dehydrated oranges. As the moisture content is removed, the dehydrated oranges have a longer shelf life as compared to regular oranges. The dehydrated oranges are also portable and make healthy and tasty snacks even during travel.

**Made To Order** -PAYAKT focuses on providing affordable high quality Fruits & Vegetables products. Here at PAYAKT we are ready to provide our customers made to order products as per the requirements of customers. Due to quality of the product guaranteed to be superior. # Fresh Vegetables

**Onions - are very good at hair follicle nourishment and help restore lost nutrients to your scalp. Onions are rich in sulphur, which is known to minimize breakage and thinning. Onions lend a healthy shine to hair, which can become permanent when used regularly.**

**Potatoes - are one of the most common and important food sources on the planet, and they contain a wealth of health benefits that make them all the more essential as a staple dietary item for much of the world's population. The health benefits include their ability to improve digestion, reduce cholesterol levels and boost heart health,**

**Tomatoes- can reduce the amount of damage done to your body by smoking cigarettes or inhaling second hand smoke. Tomatoes contain coumaric acid and chlorogenic acid that work to protect the body from carcinogens that are produced from cigarette smoke.**

**Drumsticks-The green vegetable features large quantities of iron, Vitamins as well as calcium. Drumsticks are recognized to offer healthy and strong bones and are also believed to purify the blood. Drumstick leaves particularly are said to be the blood purifier. For better outcomes have smashed drumstick leaves along with milk.**

**Green chillies -are rich sources of antioxidants and this makes them act like janitors of the body. They can protect the body against free radical damage giving you natural immunity to cancer and also slowing down the ageing process. Green chili peppers are also rich in Vitamin E that is essential for producing certain natural skin oils.**

**We also export Leguminous  
beans, Beetroot, Cauliflower, Carrot, Pumpkins & more**

# FRESH FRUITS

**Bananas-**Having a banana at breakfast every day adds a nutrient to your body to support normal heart function. Bananas are rich in a mineral electrolyte called potassium. Adding a banana to your diet also helps keep your eyes healthy. Bananas have a small amount of vitamin A, a fat-soluble vitamin that is vital for protecting your eyes and normal vision.

**Orange-**Drinking orange juice regularly prevents kidney diseases and reduces the risk of kidney stones. According to two studies in Japan, eating mandarin oranges reduces liver cancer. This may be due in part to vitamin A compounds known as carotenoid.

**Mango-** It helps to normalize insulin levels in the blood. The traditional home remedy involves boiling leaves in water, soaking through the night and then consuming the filtered decoction in the morning. Mango fruit also has a relatively low glycemic index so moderate quantities will not spike your sugar levels.

**Guava-**Due to the rich fiber content and low glycemic index, guavas prevent the development of diabetes. While the low glycemic index inhibits a sudden spike in sugar levels, the fiber content ensures the sugar levels are well regulated. Guavas are rich in Vitamin A.

**Lemon-**The health benefits of lemon include treatment of throat infections, indigestion, dental problems, and fever, internal bleeding, rheumatism, burns, obesity, respiratory disorders, cholera and high blood pressure, while it also promotes hair and skin care. Known for its therapeutic property since many generations, lemons help to strengthen your immune system, cleanse your stomach, and it is considered a blood purifier.
