Re: 2020 Electronic Drug Listing Certificates

Good Day:

We are pleased to provide the attached Certificates of Electronic Drug Listing issued by Registrar Corp. Your drug listings are now active with the U.S. FDA. Your firm's drug identified by the Certificates has been listed with the U.S. FDA in compliance with Title 21 of the United States Code of Federal Regulations (CFR). If there are any errors in the listing information on the Certificates, please notify us in writing, preferably by fax so that we may correct any problems for you.

Registrar Corp also will send you a color copy of your Certificates of Electronic Drug Listing by email. You may wish to use this electronic version to forward copies of your company's Certificate of Electronic Drug Listing to your customers and suppliers so they are aware that your company has complied with the U.S. registration and listing requirements for this drug product. Please note, however, that pursuant to 21 CFR § 207.39, "Registration of a drug establishment or drug wholesaler, or assignment of a registration number or assignment of a NDC number does not in any way denote approval of the firm or its products." Any representation that creates an impression of official approval because of registration or possession of a registration number or NDC number is misleading and constitutes misbranding." This means the certificate does not denote endorsement or approval by the U.S. FDA, and it should not be used to suggest such an inference.

If the NDC number is shown on a drug label, it shall be placed as outlined in 21CFR207.35(b)(3). Please also note, that if you revise your labeling, an updated listing must be submitted. If your company wishes to introduce another drug product into U.S. commerce, a separate listing will be required for that new drug. Registrar Corp will be pleased to update your listing or help with additional drug listings.

As your U.S. Agent and Registrant Contact, Registrar Corp will continue to serve as a communications link between the U.S. FDA and your company for your electronic submissions. If we receive any correspondence from the U.S. FDA for your company regarding your electronic submissions, we will notify you by fax, email, or phone. In addition, we will be pleased to complete electronic submissions for any drug products not already listed with the U.S. FDA which you may introduce to market.

Please contact us if you have any additional questions or need additional help with FDA compliance.

Sincerely,

David Lennarz
Vice President
